WARRANT FOR GENERAL ELECTION

November 4, 1924

Commonwealth of Massachusetts

Norfolk, ss.

To George Twigg, a Constable of the Town of Needham, in said County, Greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the Inhabitants of the Town of Needham qualified to vote in elections and in Town affairs to meet at the Town Hall in said Town on **Tuesday, the fourth day of November, 1924,** at five forty-five o'clock in the forenoon, then and there to give in their votes for the following officers, *viz.:*

Presidential Electors; Governor; Lieutenant-Governor; Secretary; Treasurer; Auditor; Attorney-General; Senator in Congress; Congressman; Councillor; Senator; Representative in General Court; County Commissioners; Register of Probate and Insolvency; County Commisioner (to fill vacancy); County Treasurer.

Acceptance of the following proposed "Amendments to the Constitution:"

REFERENDUM QUESTION NO. 1

Amendment to Constitution

Shall an amendment to the constitution relative to the qualifications of voters for certain state officers (striking out the word "male"), *which received in a joint session of the two Houses held May 24, 1921, 258 votes in the affirmative and none in the negative, and at a joint session of the two Houses held May 10, 1923, received 254 votes in the affirmative and none in the negative,* be approved?

REFERENDUM QUESTION NO. 2

Amendment to Constitution

Shall an amendment to the constitution to enable women to hold any state, county, or municipal office, and which further provides that a change of name of any woman, holding a Notary Public Commission, shall not render her commission void but she shall re-register under her new name and shall pay such fee therefor as shall be established by the general court, *which received in a joint session of the two Houses held May 24, 1921, 216 votes in the affirmative and none in the negative, and at a joint session of the two Houses held May 10, 1923, received 258 votes in the affirmative and none in the negative,* be approved?

Acceptance of the following laws submitted upon referendum after passage:

REFERENDUM QUESTION NO. 3

Shall a law (Chapter 370 of the Acts of 1923) which provides that no person shall manufacture, transport by aircraft, watercraft or vehicles, import or export spirituous or intoxicating liquor, as defined by Section 3 of Chapter 138 of the General Laws, or certain non-intoxicating beverages, as defined by Section 1 of said Chapter 138, unless in each instance he shall have obtained the permit or other authority required therefor by the laws of the United States and the regulations made thereunder, *which law was approved by both branches of the General Court by votes not recorded,* and was approved by His Excellency the Governor, be approved?

REFERENDUM QUESTION NO. 4

Shall a law (Chapter 454 of the Acts of 1923) which provides for the raising of funds toward the cost of the construction and maintenance of highways by means of an excise tax of two cents on each gallon of gasoline and other fuel used for propelling motor vehicles on the highways of the Commonwealth, said tax to be paid by the purchaser to the distributor, who, in turn, pays it to the Commonwealth, and the money to be credited to a fund to be known as the gasoline-highway fund, out of which reimbursement is to be made to purchasers, who shall consume the gasoline or other fuel in any manner except in the operation of motor vehicles on the highways, and the expenses of carrying out the act are to be paid, fifty per cent of the balance of said fund to be distributed to the cities and towns of the Commonwealth, in proportion to the amounts which they contribute to the State tax, and this fifty per cent to be expended in construction or improvement of public ways within the city or town limits, and the other fifty per cent to be expended by the State Department of Public Works on such highways as it may select, *which law was approved by both branches of the General Court by votes not recorded*, and was approved by His Excellency the Governor, be approved?

REFERENDUM QUESTION NO. 5

Shall a law (Chapter 473 of the Acts of 1923) which amends existing legislation on the same subject and provides that, subject to certain limitations, no person shall engage or be financially interested in the business of receiving deposits of money for safe keeping or for the purpose of transmitting the same or equivalents thereof to foreign countries unless he has executed and delivered a bond to the State Treasurer or deposited securities in lieu thereof, and has received a license from the Commissioner of Banks authorizing him to carry on such business; that any money which in case of breach of bond shall be paid by the licensee or surety thereon, or the securities deposited in lieu thereof, shall constitute a trust fund for the benefit of depositors; that the license shall be revocable by the Commissioner of Banks for cause shown; that the money deposited with licenses for safe keeping shall be invested in the manner prescribed by the act; and that the violation of any provision of the act shall be punished in the manner therein prescribed, *which law was approved by both branches of the General Court by votes not recorded*, and was approved by His Excellency the Governor, be approved?

REFERENDUM QUESTION NO. 6

"Shall daylight saving be retained by law in Massachusetts?"

REFERENDUM QUESTION NO. 7

Is it desirable that the General Court ratify the following proposed amendment to the constitution of the United States:— *Section 1.* The Congress shall have power to limit, regulate, and prohibit the labor of persons under eighteen years of age. *Section 2.* The power of the several States is unimpaired by this article except that the operation of State laws shall be suspended to the extent necessary to give effect to legislation enacted by the Congress?

The polls shall close at eight o'clock in the afternoon.

And you are directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said Town at least seven days before the time of said meeting and also to leave a copy at each of the several dwelling houses within the Town.

Hereof fail not, and make due return of this warrant with your doings thereon, unto ourselves on or before said day and hour.

Given under our hands at Needham aforesaid this 22nd day of October, A.D., 1924.

RECORD OF THE STATE ELECTION

November 4, 1924

Pursuant of the foregoing warrant a meeting of the Inhabitants of the Town of Needham qualified to vote in elections and in Town affairs, was held in the Town Hall in said Town on Tuesday, November 4, 1924, at forty-five minutes past five o'clock in the forenoon.

The meeting was called to order by Walter K. Queen, Chairman of the Board of Selectmen.

Voted, To omit the reading of the articles in the warrant.

The return of the officer who notified and warned the Inhabitants was read by the Town Clerk.

Pursuant to Chapter 54, Section 21 of the General Laws, the Selectmen having appointed Margaret O. Chase, Mary E. Fitzgerald, Myra R. Kingsbury, Katherine A. Durbin, William C. Payne, Albert E. Brownville, James F. Ryan, and J. F. Buckley as ballot clerks, they were sworn to the faithful discharge of their duties.

Cards of instruction and specimen ballots were posted as required by Chapter 54 Section 48 of the General Laws.

The ballots furnished by the State for use at this election were delivered to the ballot clerks and their receipt taken therefor.

The ballot box was opened and shown to be empty; it was then locked and the key delivered to George Twigg, the officer in attendance.

The polls were opened at fifty-six minutes past five o'clock in the forenoon and were kept open until eight o'clock in the afternoon.

The following additional tellers were appointed:

NOTICE

The attention of parents is called to the law relating to the registering of Births. The present requirements are as follows:

Chap. 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child * * * * shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent * * * * who neglects so to do for ten days after the time limited therefor, * * * * shall forfeit not more than five dollars for each offense.

Attention of Physicians and Midwives is Called to Chapter 280, Sec. 1, Acts of 1912

Section 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they were in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians and midwives applying therefor, blanks for return of births as required by law.

TOWN OF NEEDHAM

ANNUAL REPORT

OF THE

BOARD OF SELECTMEN

FOR THE YEAR 1924

NEWTON
GARDEN CITY PRESS, Inc.
1925

REPORT OF BOARD OF SELECTMEN

To the Inhabitants of the Town of Needham:

We submit to you the following as the two hundred and twelfth annual report of the Board of Selectmen.

Attention is called to the new by-laws of the Town put in effect August 2, 1924, copies of which can be obtained at the office of the Selectmen in the Town Hall.

Highways

The streets re-surfaced with permanent bituminous construction during the past year have needed attention for a long time. The annual appropriation was larger than ever before, but the demands exceeded the amount appropriated. Within the past few years, the whole problem of road construction has changed. With more than fifty miles of streets, 60% of which are gravel road, the inhabitants of Needham must realize that at the present cost of permanent bituminous construction, $3.60 per linear foot, a definite program must be followed for a number of years before the best results can be obtained. With the ever increasing number of automobiles and motor trucks, economy in construction is in bituminous roads instead of gravel, as gravel roads do not stand the wear and tear of motor traffic and soon need repair. When the sewer is laid, it may be time to begin concrete construction, as a concrete road can be built for 20% more than the present bituminous construction and lasts much longer without need of repair.

Central Avenue, starting at Fisher Street and extending across Charles River Street, was constructed by the Town in co-operation with the County, $5,000 being appropriated by each. The State highway department will not make any appropriation less than $10,000 and then only on the condition that the county and Town will appropriate a like amount. Construction on Central Avenue has covered a period of four years, and it is felt that, if it is to be completed before repairs are necessary on the first part of the construction, $10,000 should be appropriated by the Town this year, in which case it is hoped that the help of both the State and the County can be expected.

To make a uniform width it is most important that Great Plain Avenue be made a 70 foot street from Nehoiden Street to Garden Street and from Highland Avenue to the end of the Town land beyond Pickering Street, which will coincide

with the width in front of the common. At the present time there is a very real danger from cars parked in front of the new stores and the business expansion demands such a widening of the street.

At the request of the Board the County Commissioners have relocated Great Plain Avenue from Webster Street to the railroad bridge, establishing lines and setting bounds where necessary. Only two changes were made, the cutting of the right angle at the so-called Bond's corner and straightening the curve in front of the property of Duncan Lorraine. Sufficient appropriation must be made at the annual Town Meeting to do this work.

Greendale Avenue is in need of reconstruction throughout its entire length. We recommend that the street be relocated before any large amount of money is spent on it, because of its numerous turns and reverse curves.

Attention is called to the need of new street signs. The installation of permanent metal signs at all cross roads and through streets is most necessary.

By the Acts of 1924, Chapter 327, the Board of Selectmen is given authority over the location, size, etc., of all new billboards displayed or erected. A permit is necessary before any new ones can be placed, and the co-operation of all is urged so that our streets and highways may not be marred by unsightly signs.

For a detailed report of the operations of the highway Department and also for the list of streets recommended for reconstruction in 1925 approved by the Board of Selectmen, we refer you to the report of the Superintendent of Streets.

Street Lighting

In response to numerous requests a number of new street lights have been installed. By vote of the Town the "Moonlight" schedule has been replaced by an every night schedule until 1.00 A.M.

Attention of the Board has been called to the fact that recently a policeman was shot in Lexington a few moments after the street lights went out. Good street lighting is police protection. An all night schedule is therefore recommended.

The new lighting of the Square with a so-called "White Way" will be an improvement and a safeguard for traffic.

The above sections of the report have reference to the work of the Highway Department.

It is recommended that the Town adopt a public works bill as a measure of economy and efficiency to co-ordinate all departments having to do with the highways.

The report of the other departments of the Board will be found appended to this report, *i.e.*, State and Military Aid, Superintendent of Fire Department and Superintendent of Fire Alarm, Forest Warden, Superintendent of Moth Department, Sealer of Weights and Measures, Inspector of Buildings, Inspector of Wires, Fish and Game Warden, Inspector of Cattle, and Dog Officer.

The following sections refer to four of the special departments under the Board of Selectmen.

Drainage

Every year the importance of street drainage is being emphasized as a necessary part of highway construction. It is not enough to build the street, the work should also take care of the drainage. The present system of drainage must be relieved so that water will not stand on the streets after heavy rainfalls. The co-operation of persons owning land across which drains must go is earnestly requested so the proper system can be developed.

It must be understood that it is not possible to drain streets into the prospective sewer when it is installed. No surface water can be emptied into the sewer as it is sealed and the drainage system must be entirely separate.

Two of the most important drains to be constructed are on Pickering Street, corner of May Street, and on Highland Avenue at the River. On Pickering Street the need is urgent on account of its proximity to the Stephen Palmer School. On Highland Avenue at North Needham conditions are very bad indeed. The land is low and the soil is hard-pan. Water stands in the cellars of the few stores and it is impossible to use the space for storage; cesspools overflow constantly because of the poor drainage. Highland Terrace on which is located the Riverside School is flooded by water after every heavy rainfall. Permission has been granted by the State Engineering Department, Division of the Highways, to construct a drain and the State will bear fifty per cent of the cost.

Another drain almost as important is the one on Manning Street, which will relieve the situation and connect with the Bradford Street drain. The Manson Road drain is necessary to take care of the condition at the corner of Webster Street and Highland Avenue.

Snow Removal

With the ever increasing demand that the entire fifty miles of our streets be cleaned during a snow storm, the equipment was found inadequate. Therefore it was decided to purchase a new five ton "Best" tractor and plow, which

will take care of heavy drifts and has a twenty-four foot spread. The work of snow removal by the Street Department has always been excellent and is greatly facilitated by the new plow.

Town Hall and Grounds

The roof of the Town Hall was re-slated this year, according to the appropriation made for the work. Several necessary details, such as ventilators, gutters, etc., were taken care of at the same time, and the result is most satisfactory.

The State Building Inspector of the Department of Public Safety refused to renew the license of the upper Hall, unless fire escapes were installed. Therefore a special appropriation was asked for and the present fire escapes constructed.

The grounds of the Town Hall were improved this year by the new granolithic cross walk and the removal of the Band Stand. The granolithic should be extended to all the walks, so the grass could be kept in better condition. It should be a matter of pride to all citizens to see our Town Hall and Grounds kept in good condition.

Bridges

Applications have been made for two new bridges; Kendrick's Bridge, also called the Nahanton Street Bridge, to be built in co-operation with the City of Newton, Middlesex County, and Norfolk County, and Baker's Bridge, on Charles River Street, to be built with the assistance of Norfolk County and the Town of Dover.

It is recommended that one of the bridges be built this year.

Sidewalks

The sidewalks constructed this year were as follows: Cor. Dedham and Great Plain Avenues (special appropriation) Warren Street, westerly side, from Great Plain Avenue to the location of the N. Y., N. H. & H. R. R. Co. (by special vote of the Town); Pine Grove Street, Avery Square, Chestnut Street, Highland Avenue.

There is on file at present petitions for twenty different streets for granolithic sidewalks to be constructed under the Betterment Act. It is felt that these should be taken care of before new petitions are considered.

Attention is called to the fact that under the Betterment Act fifty per cent of the sidewalk appropriation comes back to the Town. It is therefore recommended that an appropriation of fifteen thousand dollars be made for sidewalks this year, half of which will be paid back into the Treasury.

It is always a regret when trees must be removed to make a sidewalk and whenever possible the trees are saved. Where the tree must be taken down, it would be of great benefit to the beauty of the Town if a new one was replanted and it is hoped that the Tree Warden will be willing to co-operate to this extent.

The need of extending the sidewalks to streets where none now exist is very great. This can only be done by a far larger appropriation for the general construction of sidewalks than was voted in 1924.

Police Department

The department has functioned efficiently with Chief Mackenzie at the head.

The Selectmen feel that they would be negligent in their duty if they did not urgently recommend the increase in the police force as requested by Chief Mackenzie. It is the unanimous opinion of the Board that the efficiency of the force depends upon the carrying out of this recommendation.

The department is too small for the size of the Town. There are now two banks, a large number of stores and many houses have been built in the outlying districts in the last few years. The safety of the public demands the increase of the force. The addition of one man in 1924 has not been sufficient.

In addition to the present motorcycle for use in preventing speeding on the highways and other traffic violations, it is recommended that another motorcycle be purchased for patrol work. This officer would cover the outlying districts which are now practically without police protection.

It is felt that the installation of a police signal system for Needham should be considered. This would insure the prompt calling of an officer from the central station in cases of emergency.

Board of Health

A great deal of work was necessary to prepare the new Board of Health regulations. Our agent, Mr. Berger, deserves all the credit for the detail work. Several conferences were held with the State Department of Health and it is felt that the regulations are very satisfactory.

The new milk regulation to be in effect July 1, 1925, calling for the tuberculin test of cows or pasteurization of milk will safeguard our children from one of the chief sources of infection of tuberculosis.

For years our agent has reported that the majority of complaints has come from overflowing cesspools. The time has now come when the safety of the community demands that a sewer be installed in Needham. Many people know

that cesspools overflow into our open drains and nothing can be done about it because the land is "sewer sick." This condition must not continue to exist. The Sewer Committee has consulted our agent and held a conference with our Board, and the immediate installation of the sewer is urged.

The need of a constructive public health program for the Town is imperative. To carry this out it will be necessary to have a public health nurse and allowance has been made for this in the Board of Health estimate for 1925. A public health nurse will take care of communicable diseases, tuberculosis cases, pre-natal cases and the pre-school age child. It will be noted in the report of the Town Accountant under health and sanitation, that the second largest item is "hospital expenses — contagious diseases." It is believed that the hospital bills would be less and the general health of the community greatly improved by a public health nurse. It should be remembered that the district nurse, when she calls on tuberculosis patients, is doing work for the Town, as the State requires that all cases be reported and that records be kept and sent to the State Department of Public Health. It is impossible in a Town the size of Needham that one district nurse who does bed-side work, cares for maternity cases and has charge of the baby clinic, should also take care of tuberculosis cases. Yet Miss Taylor, our district nurse, as nearly as possible, does accomplish all this.

Needham must realize that preventative public health work is possible in any community today and is a measure of economy because the economic cost of disease cannot be estimated.

Board of Survey

The work of the Board of Survey is increasing each year. Attention is called to General Laws, Chapter 41, Section 74 which states "After the establishment of a Board of Survey no person shall open a private way for public use without first submitting to said board suitable plans thereof in accordance with such rules and regulations as the Board may prescribe* * *." The co-operation of all persons developing property is necessary, so a complete record shall be established.

The Board of Survey has followed the policy of submitting all plans to the Planning Board for approval or suggestions. This has been most helpful and of real value to the best development of the Town.

Respectfully submitted,

WALTER K. QUEEN,
LESLIE B. CUTLER,
ALLSTON R. BOWERS,
Board of Selectmen.

REPORT OF THE BOARD OF HEALTH

To the Needham Board of Health:

My report as Agent and Milk Inspector for the year 1924 is hereby submitted:

Diseases Dangerous to Public Health

During the year a total of 134 cases of contagious diseases were reported to the Board. Of the two tables appended Table No. 1 shows the monthly incidence of the various cases. In Table No. II is found the ten year record for the same diseases.

Diphtheria

Four cases of diphtheria were reported during the year, one of which proved fatal. In this case the individual had been ill several days before medical aid was summoned. In spite of prompt hospitalization and intubation the ravages of the disease had made too much headway to be counteracted by medical care. The writer again urges that parents regard all sore throats as suspicious until proven otherwise by cultures. Tardy administration of antitoxin lessens the chances of recovery by almost 100%. Early treatment assures recovery with none of the disastrous after effects of the disease.

Once more the agent advocates that some steps be taken whereby the children of Needham receive the benefits of the Schick Test. No doubt exists as to the efficiency of this test and the subsequent immunization of those children who prove susceptible to the disease. By means of the Schick Test it will be possible to lessen the possibility of a serious outbreak of Diphtheria.

Scarlet Fever

The year 1924 shows a total of 26 cases of Scarlet Fever reported. With the exception of the month of August at least one case per month was reported. Four was the greatest number of cases coming to the attention of the Board in any one month. In some instances, two or more cases occurred in the same family due to the fact that earlier stages were unrecognized by the parents and when serious symptoms manifested themselves, a doctor was called, only to find that what the parent had regarded as a sore throat was actually Scarlet Fever. In many instances, the doctor found the other children of the house showing signs of having had the disease. Unless the Board of Health knows where the cases are it is unable to take the necessary action to

prevent an outbreak. As a rule the majority of the cases have been very light.

Typhoid Fever

The only case of typhoid occurring in Needham proved fatal. Careful investigation showed quite conclusively that the infection took place outside of the Town.

Tuberculosis

Tuberculosis cases show an increase of four over 1923. Two of the cases are now at the Norfolk County Hospital.

Mumps

Beginning in October an outbreak of Mumps manifested itself. During December 22 cases were reported and it would seem at the present writing that the peak of the outbreak had been reached and is now subsiding. Great difficulty is encountered in getting parents to report cases such as mumps, measles, and chicken pox. This is especially true where doctors are not called to treat the case. Parents must realize that the law imposes the same responsibility in them as it does in the doctors. Much trouble would be saved the parent when the time arrives for the child to return to school because all children remaining out of school on account of a contagious disease must now have a permit from the Board of Health in order to return to the classroom. This permit will only be issued by the Board of Health and not by the attending physician and it will not be given until all the requirements of the Board of Health have been fulfilled.

Complaints

As in previous years the majority of complaints have had to do with questions of sewage disposal. The writer read with great pleasure the report of the committee on Sewage Disposal. Until a public sewer is placed in operation Needham can not claim to be doing all that is possible for the health of its people. Viewed from all angles, sanitary, esthetic and on the grounds of decency the need for a public sewer exists. The committee has made a thorough study of the situation and in the opinion of the writer has reached the proper solution.

Board of Health Regulations

The adoption of a new sanitary code has given the Town a set of regulations which gives the agent sufficient power to take such steps as are necessary to cope with any situation which may arise. It is short but quite complete.

Laboratory

During the year the laboratory made 66 examinations for the physicians of the Town. The various examinations were as follows:

Cultures	36
Sputa	11
Blood (Typhoid)	8
Smear (Gon.)	8
Malaria	1
Special	2
Total	66

Milk

During the year the laboratory has kept constant oversight of the milk supply in Needham. This work serves the dual purpose of assuring the purchaser of a cleanly product as well as a product with a high food value. In tables three and four the writer has compiled the results of these monthly examinations. At a glance a reader will be able to ascertain the purity and food value of the product which any particular dealer purveys. In reading these tables it should be born in mind that a low count means cleanly methods of production and a fresh milk. High fat and total solids content indicate a milk of excellent food value. State law requires all milk sold in Massachusetts to contain at least 3.35% fats and 12.0% solids.

The Board of Health has adopted a new regulation in regard to milk. On and after July 1, 1925, all milk sold in Needham must be pasteurized or from a herd of cattle which has been subjected to a tuberculin test. Pasteurized milk is understood in these regulations to be milk which has been heated to at least 145 degrees Fahr. and held at this temperature for 30 minutes. This regulation was adopted in order to assure the inhabitants of Needham a milk supply which would afford them the greatest degree of safety.

Vital Statistics

Under tables of various headings are those figures on vital statistics as are used by sanitarians to measure the health status of a community. The figures for the current year are purposely left out as at this early writing it is impossible to obtain complete reports on births and deaths. In order that these figures may be as accurate as possible 1923 figures are used as the last figures in the tables.

Public Health Nurse

As Needham grows in population the need for greater work on the part of the Health Department is clearly brought to the fore. At the present time a very important piece of work could be done if the Board had at its disposal a nurse whose sole duty it was to investigate Tuberculosis cases and care for contagious diseases. Much of the money now spent on hospitalization of contagious cases could be saved and applied to her salary. Cases of tuberculosis are known where the services of a nurse of this kind would prove invaluable. Health work is rapidly taking on more and more the features of the social service worker. This field of health education is pre-eminently the sphere of the public health nurse. The opportunity is here. A great and much needed work is to be done.

The agent takes this occasion to thank the publishers of the *Needham Chronicle* and the *Needham Townsman* for their kindness in publishing the results of the monthly milk analyses; also thanks are due to the McNamara Pharmacy for their kindness in acting as a culture station for the Board of Health.

Respectfully,

H. E. BERGER, Jr.,

Agent, Needham Board of Health.

REPORT OF THE SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:

The following report of the operations of the Street Department for the year 1924 is respectfully submitted. The financial statement in detail will be found in the Accountant's Report.

Maintenance

Approximately twelve miles of roadway was surfaced with bituminous treatment.

The frost and thaws were unusually hard on our gravel roads the past winter and spring, calling for more maintenance than the average spring or winter.

Fences

Our fences are in excellent condition having been taken care of in the early spring.

Drains

Catch Basins and Drains have been constructed on Nehoiden, Chestnut, Manning and Brookline streets.

From the General Highway appropriations:

Permanent Bituminous Construction

Pickering from Great Plain Avenue to May Street	2,570 yards
Nehoiden Street, two sections	4,280 yards
Garden Street	2,000 yards
Chestnut Street	980 yards
Manning Street	600 yards
South Street, east of Webster	1,100 yards
Webster Street	2,600 yards
Total yards	14,130 yards

Special Appropriations:

Stevens Road	2,282 yards
Gordon Road	1,080 yards
Brookline Street	1,800 yards
Central Avenue (town and county)	5,800 yards
Total	10,962 yards

Making the permanent construction this year a total of 25,092 yards.

Recommendations

Permit me to again call your attention to the need of surface drainage at Highland Avenue and Chapel Streets, May and Pickering Streets, Manning Street, and Highland Avenue at the Charles River.

Streets

Charles River Street from Grove Street to Baker's Bridge, and South Street from Great Plain Avenue should be built this year.

Snow

Snow removal is a very simple routine of activity. We work on the theory that success in snow removal is in prevention of accumulation rather than in removing accumulation. Therefore we try to operate during all storms so that the snow may not accumulate on the roads.

Respectfully submitted,

WALTER A. SANCRIE,
Superintendent of Streets.

REPORT OF POLICE DEPARTMENT

January 19, 1925.

To the Honorable Board of Selectmen:

I herewith submit my annual report of the Police Department for the year ending December 31, 1924.

The department has had an exceptionally busy year, owing to the rapid increase of population and of motor traffic. There has been an increased vigilance on the part of the officers in watching out for the safety of the school children on their way to and from school. The demands from the people by telephone calls have also increased largely in the past year, as has the office work in the matters of granting permits, getting licenses, and the many other details of office routine.

The Town at present has the same number of officers on duty at night as it had thirty-five years ago; one at the Heights and one at Needham, and between the hours of 4.00 and 8.00 A.M. the Town is entirely unprotected.

In view of the foregoing, I earnestly recommend that the department should have two more men. This will make it possible for an officer to go on duty at 11.00 P.M. and remain until 8.00 A.M., when the day force goes on. Also the additional men would take care of the one day off in eight, which under the present conditions keeps the department short of men. I consider it absolutely necessary for the maintenance of an efficient department that there should be force enough to permit the covering of the office all day, which is impossible with the number of men now employed.

Constantly increasing traffic problems add greatly to the routine work of the department and this fact alone would point to the necessity of an increase in the force if the Town desires adequate police protection. Needham has been very fortunate thus far in having no serious happenings which would call for an emergency force, but with the fact in mind that the usual proportion of officers is one for each thousand of population, I feel that the number of men on the present force is insufficient for the proper policing of the Town.

The police ambulance added last year to the equipment has proven its worth many times in cases of accidents and has also been frequently used in transporting patients to the hospital. The motor cycle has tended to decrease violations of the traffic laws, more especially the speed laws.

The department, this year, will not be furnished auto lists so that those desiring information on registrations will have to receive it from the office of the Registrar of Motor Vehicles.

Following is a record of the court cases handled during the year:

To the Honorable Board and to the patrolmen, I wish to extend my appreciation for their assistance and co-operation at all times, and to the townspeople for their support in keeping Needham one of the cleanest and most orderly towns in the State.

Respectfully submitted,

NORMAN MacKENZIE,
Chief of Police.

REPORT OF CHIEF OF FIRE DEPARTMENT

December 31, 1924.

To the Honorable Board of Selectmen:

I herewith submit the thirty-ninth annual report of the Needham Fire Department and my seventeenth as Chief.

The calls on this department increase each year with the growth of the Town. The total number of calls during the past year was 197, thirty more than in 1923, and the largest number of alarms ever recorded for any one year in Needham. The total of 197 alarms includes five out of town calls, of which three were to Dedham and two to Dover, 19 still, 12 second alarms, nine needless, eight false, and one test.

Help which was of much value has been called from Wellesley on three occasions and from Dedham once. The most disastrous fire the department had to cope with during the year occurred on January 5th in the Congregational Church, where the flames had gained great headway before discovery. Two alarms were sounded for this fire and aid called from the Wellesley Department. On February 3, Wellesley was again called upon for help at the Walker Gordon Co. boarding house fire on Fisher Street, for which two alarms were sounded. The larger part of the building was saved. I wish to express the appreciation of the department for the service of the Salvation Army at this fire, to

which Ensign Floyd L. Kellar and his assistants of the Emergency Brigade drove through a snow storm from Boston, and served hot coffee and sandwiches on their arrival. On July 29 the Wellesley Department was called to help at an extensive brush fire off Greendale avenue on the Newton Water Reservation. This fire burned for two days, and on the second day, the department was also called to another fire which had gained great headway and destroyed the barn of Thomas Gleghorn. Assistance at this fire was called from Dedham.

All the apparatus of this department is in good mechanical condition. The Combination, which is eight years old, should be repainted, and the tires should be renewed on both this apparatus and the Engine.

The permanent men of the department do all the work on the fire alarm system, make the minor repairs to the motors, beside the various other duties assigned them. I wish to express my appreciation of the spirit shown by both the permanent and the call firemen, and of the manner in which they perform their duties.

In February Lieutenant Harris resigned, and Robert E. Thompson was appointed by the Board of Engineers to fill the vacancy. On May 1, Wade Hampton was promoted to a lieutenant.

I wish again to call attention to the unsafe condition of the fire stations. While they are in as good repair as it is possible to make them, they are old and shaky, unsafe for habitation, and I would recommend that steps be taken to build a central fire station at once.

Inspections are made of all public buildings from time to time and a marked improvement has been made since the inspections were started.

Each company of this department is required to hold drills twice a month during the summer. The amount of hose used for fire service during the year is 22,150 feet; the number of gallons of chemical used was 1542 and there were 1960 feet of ladders raised in the extinguishment of fires.

The total of 197 calls during the past year are classified as follows:

Frame Buildings	47
Brick Buildings	1
Woods, Brush and Grass	93
Dump	6
Automobiles	5
Transformer	1
Out of Town	5
Still Alarms	19
False Alarms	8
Second Alarms	12

Causes of fire so far as known are as follows:

Incendiary	26
Sparks Locomotive	24
Chimneys	20
Smoking	9
Children	6
Dump	6
Oil Stove	5
Rubbish	5
Carelessness	3
Lightning	3
Accident	2
Wires	2
Electric Heater	1
Explosion	1

The amount of value, insurance, and loss by fire, is as follows:

Value of Buildings at risk	$318,300 00
Value of Contents at risk	148,175 00
Total	$466,475 00
Insurance on Buildings	$238,000 00
Insurance on Contents	100,600 00
Total	$338,600 00
Loss on Buildings	$48,941 00
Loss on Contents	19,960 00
Total	$68,901 00
Insurance paid on Buildings	$43,839 00
Insurance paid on Contents	15,577 00
Total	$59,416 00
Actual financial loss to owners of property by fire	$9,485 00

The loss by fire was fourteen and seventy-seven one hundreds per cent of the total value of the property at risk.

The actual financial loss resulting from fire to owners of property in Needham in 1924 was two per cent of the total value of the property at risk.

In conclusion I wish to express my appreciation for the co-operation of the permanent and call men of the department, also to the Honorable Board of Selectmen for their aid and support in all matters pertaining to this department.

Respectfully submitted,

H. HOWARD UPHAM,
Chief of Fire Department.

REPORT OF THE SUPERINTENDENT OF FIRE ALARM

Needham, Mass., December 31, 1924.

To the Honorable Board of Selectmen:

In accordance with the recommendations made last year, fifteen hundred feet of underground cable has been run this year. This makes all new cable in the square and completes the underground work until such time as the Edison and Telephone Companies change more of their poles. About two and one-half miles of new wire has been run on overhead construction; most of which was on Central Avenue, and some on Grant Street. Fifty new crossarms have been put up where the old ones were rotted out.

The lines and all the signal boxes have been thoroughly inspected and at the present time the system is in perfect working condition.

Three new signal boxes have been added this year, located as follows: Box 122 on the new high school building, Box 45 on Central Avenue near the Dwight School, and Box 321 on Greenough Street near Pine Grove and Avery Streets.

All work done on the system has been done under the general supervision of the Chief of the Fire Department as Superintendent of Fire Alarm. All of the labor, except in underground cable work for which some outside assistance was obtained, has been performed by Assistant Superintendent Hampton assisted by the permanent men in the Fire Department who have done about twelve hundred hours work in the Fire Alarm Department.

For the coming year I recommend the installation of a box on Greendale Avenue near the R. R. Bridge, one on Stevens Road, and one on Webster Street, near Howland Street. I would also recommend that signal boxes be placed on all of the school houses and the hospital.

Respectfully submitted,

H. HOWARD UPHAM,
Superintendent of Fire Alarm.

REPORT OF FOREST WARDEN

Needham, Mass., December 31, 1924.

To the Honorable Board of Selectmen:

I herewith submit my 16th annual report as Forest Warden.

In accordance with the statutes the necessary notices relative to the necessity of securing a written permit from the Forest Warden before building a fire in the open were published in the *Needham Chronicle* in the month of February.

During the year 1,277 written permits for burning rubbish, grass and brush were issued from this office. Due to the dry periods occurring this year and the fact that the granting of permits was suspended in such periods by order of the State Forester, there were 374 less permits issued this year than last. During the dry seasons when forest fires were a serious menace, the forest warden made patrol trips through the wooded sections of the Town. The Fire Department was called six times to rubbish fires for which permits had been issued.

Residents desiring to burn rubbish in the open are required by law to first obtain a written permit from the Forest Warden. The instructions printed on the permits should be carefully read and followed.

The following are extracts from the Massachusetts Forest Fire Laws:

Setting of Fires in the Open Air

No person shall set, maintain or increase a fire in the open air between March first and December first except by written permission of the state fire marshal, within the metropolitan fire prevention district as defined in Section twenty-eight, of Chapter one hundred and forty-eight, or, outside thereof, of the forest warden or chief of the fire department in cities and towns, or, in cities having such an official, the fire commissioner; provided, that debris from fields, gardens, and orchards and leaves and rubbish from yards may be burned on ploughed fields by the owners thereof, their agents or lessees, if such fire is at least two hundred feet distant from any sprout or forest land and at least fifty feet distant from any building and is properly attended, until extinguished; and provided, further, that persons above the age of eighteen may set or maintain a fire for a reasonable purpose upon sandy land or upon salt marshes or sandy or rocky beaches bordering on tide water, if the fire is enclosed within rocks, metal or other non-inflammable material. The forest wardens in towns and officials performing the duties of forest wardens in cities shall

cause public notice to be given of the provisions of this section, and shall enforce the same. Whoever violates any provision of this section shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than one month, or both. G. L. Chap. 48, Sect. 13.

Arrest Without Warrant

The Forest Warden or any of his deputies may arrest any persons setting or maintaining a fire in violation of the provisions of this Act. G. L. Chap. 48, Sect. 15.

Respectfully submitted,

H. HOWARD UPHAM,
Forest Warden.

REPORT OF SUPERINTENDENT OF MOTH DEPARTMENT

December 31, 1924.

To the Honorable Board of Selectmen:

I herewith submit the annual report of the Moth Department for the year 1924.

The insect pests show a marked decrease over last year. In some localities the Browntail Moth was found, but in very small numbers.

The Oak Leaf Roller appears to have been exterminated for three years beginning in 1919. This pest caused as much damage to the foliage as the Gypsy Moth. The Oak Leaf Roller puts in his appearance at the time the leaf bud is developing and destroys the buds. Only a very early spraying is effective with this pest, and after a four year struggle, has apparently been conquered.

The Elm Leaf Beetle was present in a number of places, but this menace was checked by spraying and the elm tree foliage was not damaged.

The Gypsy Moth is still in evidence in all parts of the Town but to a much less degree than ever before. This department is encouraged to believe that with continued efficient care the Gypsy Moth pest may soon become history.

The Satin Moth, however, has come to be a considerable menace. This moth may be identified by two rows of white spots on its back. It feeds exclusively on willow and all varieties of poplar trees. On a number of estates the poplar trees were entirely stripped of foliage. In order to preserve the foliage on these trees, it is absolutely necessary to spray them with arsenate of lead during the last week of May or the first week of June.

As predicted last year in the report of this department, the infestation of the Tent Caterpillar was very serious. This pest will feed on the foliage of any kind of tree, but it prefers fruit and wild cherry. To insure against the inroads of this caterpillar, the owners of fruit trees are advised to destroy all growth of wild cherry around their orchards or gardens. The nests of Tent Caterpillars should be destroyed when they first appear. To accomplish this tie a small bunch of rags or burlap to the end of a pole. Saturate the cloth in kerosene and draw it through the nest. Do not burn the nests as it will result in injury to the trees. This department sprayed no less than 30 miles of roadside in an effort to control the Tent Caterpillar in 1924.

The scouting and clipping of the Browntail webs and the creosoting of Gypsy Moth eggs will have to be continued this year. Although in steadily diminishing numbers, the egg clusters of both the Browntail and Gypsy Moths still appear in all parts of the Town and cannot be neglected in our year's program.

Three tons of arsenate of lead was used in spraying the Gypsy Moth and other pests. In no part of the Town did the foliage of shade trees suffer any damage and the spraying on private estates was most successful.

The continued co-operation of private property owners is very gratifying and in appreciation this department takes this opportunity to thank them.

GEORGE TWIGG,
Superintendent.

REPORT OF TREE WARDEN

Needham, Mass., December 31, 1924.

To the Citizens of Needham:

I herewith submit the annual report of the Tree Warden Department for the year ending 1924.

The necessity for road side brush cutting increases every year. Not only does the brush on curves and road intersections have to be cut yearly, but it has now become imperative to safeguard pedestrians on streets that have no sidewalks by cutting back the brush thus providing a zone of safety for foot travel.

This department has removed during the past year eleven dead shade trees from Highland Avenue, Central Avenue, Great Plain Avenue, and Fair Oaks Park. These trees, already weakened by the macadamized road construction

and root cutting made necessary in concrete sidewalk building, failed to rally from the serious damage done by the ice storm of four years ago.

Sidewalk building and new street construction have necessitated the removal of eighteen shade trees.

A considerable amount of trimming and removing dead limbs was accomplished this fall and winter. The shade trees have all been carefully inspected. Bark injuries and cavities were treated with an antiseptic paint which has a healing effect on the injured part and prevents diseases and rot from making inroads on the trees. Careless backing and turning around of automobiles has caused a major part of these bark injuries. A slight degree of care on the part of automobile drivers would eliminate such damage.

The department has planted shade trees on Great Plain Avenue and Bradford, Manning, Otis, Warren, and Webster Streets. A greater number of trees would have been set out but the prolonged drought in the fall made it impossible to carry out the planting program. The planting in the recently constructed section of Harris Avenue was completed. Elm alternated with spruce were set out in the center of the boulevard which greatly enhances its beauty. The department proposes to plant trees this spring on some of the newly accepted streets.

Considerable damage was done to the shade trees on Dedham Avenue by the moving of buildings. Provision has been made to insure against a repetition of such destruction. Arrangements have been made for this department to furnish the Selectmen with an estimate of the dimensions of buildings that may be moved through our streets, which record will be kept at the office of the Selectmen.

Respectfully submitted,

GEORGE TWIGG,
Tree Warden.

REPORT OF SEALER OF WEIGHTS AND MEASURES

Needham, Mass., January 1, 1925.

Needham Board of Selectmen:

I herewith submit the annual report of Sealer of Weights and Measures for year ending December 31, 1924.

One hundred and three annual inspections were made. Additional inspections have also been made from time to time.

The results of inspections have been very satisfactory.

Fees collected	$81 23
Amount turned over to Treasurer	$81 23

WILLIAM H. STANTON,
Sealer of Weights and Measures.

REPORT OF DOG OFFICER

Needham, Mass., January 1, 1925.

Needham Board of Selectmen:

The following report of Dog Officer for year ending December 31, 1924, is submitted.

Number of dogs licensed four hundred and thirty-eight, an increase of sixty over 1923.

Many complaints have been made of dogs running loose doing great damage to gardens in particular.

These complaints would be greatly lessened if indifferent and thoughtless dog owners would have more regard for their neighbor.

WILLIAM H. STANTON,
Dog Officer.

REPORT OF THE BUILDING INSPECTOR

December 31, 1924.

To the Honorable Board of Selectmen:

I herewith submit my eighth annual report as Building Inspector and the twelfth of this department.

The estimated cost of construction, a total for the year of $1,376,100 is shown by the monthly issue of permits as follows:

	No. Permits	Estimated Value
January	12	$55,800 00
February	9	26,700 00
March	21	99,950 00
April	31	113,675 00
May	43	131,625 00
June	34	121,375 00
July	32	217,050 00
August	36	74,800 00
September	40	143,730 00
October	39	133,335 00
November	36	178,560 00
December	22	79,500 00
	355	$1,376,100 00

The number of building permits issued from this office during the past year is 355, classified as follows:

	No. Permits	Estimated Value
Dwellings	144	$983,150 00
*Garage	127	81,950 00
Additions and Alterations	55	70,850 00
Blk. Stores	5	100,000 00
Church	1	65,000 00
Dairy	2	56,000 00
Miscellaneous	21	19,150 00
*Authorized by Selectmen, 3	355	$1,376,100 00

Five of the dwelling permits were for 2-family houses and three single dwellings and a barn have been remodeled for 2-family occupancy, making a total of nine 2-family dwellings during the year.

The total value of permits issued for the past eight years is $4,946,066. The year of 1924 makes a record for building operations in the Town. The value of building completed and under construction is far in advance of any one year in the history of Needham. The increase in building in 1924 over that of 1923 is $209,150, and the increase in the number of permits is 77.

All construction has been carefully inspected and made to comply with our building laws.

The number of permits for electric wiring issued during the year from this office is 372. These permits are issued from Fire Department Headquarters and the inspections are made by Joseph Alexander, Inspector of Wires, (residence) 262 Harris Avenue.

The total number of plumbing permits is 187. The plumbing permits are issued by the Inspectors of Plumbing J. F. Buckley, (residence) 109 Dedham Avenue, Needham, and Henry Thomas, West Street, Needham Heights.

Under the new building code in the By-Laws, the charges for permits in this department were raised and went into effect on November 1. Under the present scale of prices the department will be self supporting.

The amount collected for permits by this department and paid to the Town Treasurer, is as follows:

355 Building Permits	$580 00
372 Electric	350 75
187 Plumbing	281 00
Total	$1,211 75

Respectfully submitted,

H. HOWARD UPHAM,
Building Inspector.

REPORT OF PARK COMMISSIONERS

To the Honorable Board of Selectmen:

The Park Commissioners respectfully submit their annual report:

During 1924, Thorpe Memorial, Vesta and Noyes Parks; Needham Heights Common, Needham Station plot; the Bathing Reservation and minor plots located near the Public Library, at Hurd's Corner and at the junction of Webster Street and Greendale Avenue, have come under our jurisdiction.

For the maintenance and improvement of these public properties we have expended the sum of $1,297.13 as follows:

Labor	$670 54
New shrubbery and trees	106 00
Repairing flagpole and purchase of flags	203 50
Lifeguard's salary, bathing reservation	112 00
Material	135 09
Bedding plants	70 00
	$1,297 13
Balance on hand December 31, 1924, which reverted to the Town Treasurer	4 37
	$1,301 50
Town's appropriations	1,150 00
Excess cost of maintaining and improving parks over and above the Town's appropriations	$151 50
Private donation	70 00
Unpaid balance December 31, 1924	$81 50

The Town granted during the year 1924, appropriations of $1,150.00 in order that we might carry on the routine work of the department and also make certain permanent improvements in Thorpe Memorial, Noyes and Vesta Parks.

The work upon Thorpe Memorial Park was carried out but owing to a circumstance unforeseen at the time of reporting and to the increased cost of labor for routine work and improvements we were obliged to curtail our plans for Vesta and Noyes Parks. During a heavy gale early in 1924, it became apparent that the flagpole on Needham Heights Common was in a condition dangerous to human life. This flagpole was taken down, shortened, strengthened, and solidly relocated in the center of the plot. New flower

beds were laid out and constructed and were filled with flowering bedding plants to the donors of which, Mr. W. H. Carter and Mr. Preston Mitchell, the Commissioners express on behalf of the Town its appreciation. This work was a valuable, permanent, necessary improvement and was imperative.

In addition to the routine upkeep of the parks, we have carried out improvements at:

Thorpe Memorial Park: spading, raking and seeding of barren spots formerly occupied by shrubs; preparation of 18 tree pits; purchase and planting of 18 flowering hawthorns, viburnums, and dogwoods.

Noyes Park: spading, raking and seeding of barren spots formerly occupied by shrubs.

Vesta Park: removal of two badly located tress damaged by ice, and loaming and reseeding.

Needham Heights Common: removal of obsolete fountain and unsightly fence, and the purchase and planting of an elm, in addition to work noted above in connection with flagpole.

Needham Station plot: removal of obsolete fountain, and the purchase and planting of two elms, which, it is hoped, will beautify and shade an otherwise hot and dusty area.

The Bathing Reservation has been in charge of the life guard, Mr. Enos G. Nickerson and that it is popular among the younger poeple is shown by the average daily attendance, on their respective days, of 30 boys and 25 girls.

The Commissioners desire to carry out complete improvements at Noyes and Vesta Parks as outlined in their report for 1923 but hesitate to recommend additional expense to the Town at this time. An estimate of $514.80 has been received for the *complete* regrading and rehabilitation of Vesta Park. This would make Vesta Park a verdant, pleasant, resting place and a satisfaction to the neighborhood and to the community. While the Commissioners question the advisability of asking for and expending this entire amount now, it is, however, their intention to undertake a part of this work during the coming year.

Consequently, the Commissioners, having endeavored under extraordinary and unforeseen circumstances, to administer the parks wisely and the Town's appropriation economically, do now ask that the Town maintain without increase the appropriation of 1924 and set aside for the upkeep and improvement of the parks during 1925 the sum of $1,150.00.

Respectfully submitted:

PRESTON MITCHELL, *Chairman*,
I. TUCKER BURR, Jr., *Secretary*,
FREDERICK KINGSBURY.

REPORT OF MEMORIAL PARK TRUSTEES

To the Inhabitants of the Town of Needham:

The dry summer of 1924 so retarded the growth of the grass on the athletic field that it was not until fall that it could be used for games. However, after the fall rains a good sod was formed and the field was used during the fall by the High School, the Boy Scouts, and the Soccer Club. The dangerous cellar hole and other holes have been filled.

A considerable area around the Legion home was graded and seeded, the grass getting a good start during the summer. The driveway to the Legion home was built and the roof of the house reshingled.

The Legion staged a fine Fourth of July celebration on the Park and ran a successful series of band concerts during the summer. The Chautauqua was also held on the Park.

The War Department of the United States donated a sixteen foot Navy gun to the Town. Plans for the mounting of this gun are being considered. The band stand has been moved from the Town Common to the Park.

REPORT OF PLANNING BOARD

The Planning Board herewith submits its annual report for the year 1924.

The larger part of the work of the Board has been concentrated on the preparation of a zoning ordinance and Town map as per the vote of the Town Meeting in March. In addition to the regular weekly meetings a number of special meetings have been held. A considerable amount of field work has also been done.

A Zoning Engineer, Mr. Edward T. Hartman of Boston, who is the adviser to the state on zoning and Town Planning, was retained as an adviser to the Board. A "Use Map" was then prepared showing the present uses of property in the Town and a tentative zoning ordinance drawn up.

Four public hearings were held in the spring for different sections of the Town to learn from the residents just how they wished the Town zoned. These hearings were advertised in the local papers, flyers were distributed by the school children to their houses, flyers were inserted with the Sunday newspapers and notices posted in prominent parts of the Town. At a subsequent hearing a proposed zone map was

presented for general discussion to get any further ideas or suggestions which the citizens might have to offer.

The final zoning map and ordinance were then prepared and printed and a copy mailed to every registered voter in the Town for consideration in preparation for the special Town Meeting of September 23, which was to consider this matter.

After an interesting discussion of zoning, and zoning as proposed by the Planning Board, it was voted to refer the matter back to the Board for further study, and for them to report with another plan at the regular Town Meeting in March, 1925. Hearings duly advertised in the local papers were again held in the fall to obtain any new suggestions that might go toward improving the zoning ordinance or map.

The preparation of an adequate Town map as authorized by the Town Meeting in March has been started and is now nearing completion.

In addition to the routine work that comes before the Board during the year, many plans for locations of new streets and developments of properties have been submitted. These have been studied and recommendations made to the Board of Survey regarding them.

REPORT OF THE SEWER COMMITTEE

To the Citizens of Needham:

December 31, 1924.

The committee on Sewerage respectfully submits the following brief outline of its activities to date:

At the annual Town Meeting of 1924, the Town by its vote accepted Chapter 59 of the Acts of 1924, an act entitled, "An Act providing for the admission of the Town of Needham to the South Metropolitan Sewerage System and authorizing said Town to construct and operate a system of sewers and to borrow outside the statutory limit of indebtness therefor."

Under Article 45 of the Town Warrant the Town further voted to appoint a committee of three citizens to carry out the provisions of the aforementioned act—one member to be appointed by the Board of Selectmen and two members to be appointed by the Finance Committee. Pursuant to the provisions of this vote Mr. Leonard Dawson was appointed by the Board of Selectmen and Messrs. George A. Lord and N. LeRoy Hammond by the Finance Committee.

Soon after appointment, the committee organized with Mr. Lord as Chairman and Mr. Hammond as Secretary. In the early part of September Mr. Dawson resigned from the committee owing to plans for an extended absence from Town and Mr. Edward Seaver was appointed by the Board of Selectmen to fill the vacancy. The committee at this time desires to express their appreciation of the untiring efforts of Mr. Dawson while he served on this committee.

While the committee could but recognize that the Town in its action on accepting the "Sewerage Act" clearly indicated the desire of the citizens for a sewerage system, yet it was deemed advisable for the committee to determine as to the necessity of such a system. Considerable study has been made on this subject and the committee has been surprised to learn of the unsanitary conditions existing in certain sections of the Town due to the lack of proper sewerage facilities and strongly recommend that a system, at least of sufficient magnitude to eliminate the existing menaces to public health, be inaugurated at the earliest possible time. Before undertaking definite recommendations, the committee decided that an intensive study should be made of the entire question in order that such a construction as might be recommended for the present would adapt itself to the future needs of the Town.

Your committee has carefully reviewed the report of the former committee and early in September appointed Messrs. Barbour and Dixon of Boston as Consulting Engineers. Certain changes in the 1923 plan were suggested by your committee and after examination in detail by the engineers, were adopted by the committee and show a substantial saving in the cost of sewerage installation.

As required by Section 15 of the "Sewerage Act" for Needham, the Committee made application to the State Department of Public Health for the approval of plans adopted by the committee. After due notice to the public and a hearing, the Department of Public Health approved the plans on November 26, 1924, as follows:

To the Committee on Sewerage,
Needham, Massachusetts.

Gentlemen:—The Department of Public Health received from you on November 6, 1924, the following application for the approval of plans of a sewerage system for the Town of Needham under the provisions of Chapter 59 of the Acts of the year 1924:

> "The Committee on Sewerage of the Town of Needham hereby makes application for the approval by the Department of Public Health as provided for

in Chapter 59 of the Acts of 1924, of a plan of sewerage for the Town.

"The committee submits, herewith, a report entitled 'Report of the Sewer Committee of the Town of Needham to the Adjourned Annual Town Meeting, April 9, 1923, Transmitting the Report of Barbour and Dixon, Engineers.'

"The present committee has adopted the plan substantially as presented in the report.

"Messrs. Barbour and Dixon of Boston have been appointed Consulting Engineers to the committee, and have been instructed to furnish such further information as you may desire.

The application was accompanied by a report of the committee and a plan of the proposed works prepared by Barbour & Dixon, Engineers, of Boston, and dated February, 1923. The plan presented provides for the collection and disposal of the sewage of the main portion of the Town by gravity into the so-called Wellesley trunk sewer of the South Metropolitan sewerage district through a main sewer in Dedham Avenue connecting with the said Metropolitan sewer near the northerly bank of the Charles River and just west of Dedham Avenue. The plan also provides for the collection of the sewage of the Rosemary Brook district, so-called, in the northwesterly part of the Town at a pumping station to be located on the northerly side of West Street a short distance east of Rosemary Brook, from which the sewage will be pumped into the main sewer of the gravity district at the junction of Highland Avenue and West Street. Provision is also made in the plan as subsequently revised for the collection of the sewage of the Upper Falls District, so-called in the extreme northeasterly part of the Town at a pumping station to be located close to the bank of the Charles River and a short distance up stream from the Woonsocket branch of the New York, New Haven & Hartford Railroad, from which the sewage is to be pumped into the gravity system at the junction of Highland Avenue and Webster Street.

In accordance with the requirement of the statute, the department gave a hearing to parties interested at its office Room 546 State House, on Tuesday, November 18, after due notice to the public.

After this hearing, at which no objection was made to the approval of the plan, the department, having considered the plan and information submitted and the reports of its engineers thereon, voted to approve the proposed plan under the provisions of Chapter 59 of the Acts of the year 1924. The department suggests that in the construction of the works for the Upper Falls District the main sewers between

Highland and Central Avenues be laid, if practicable, at a somewhat steeper slope than shown on the plans submitted and that the pump well be lowered correspondingly.

The plan herein approved is entitled "Needham Sewerage System Plan Showing Lateral and Intercepting Sewers Adopted by 1924 Sewerage Committee, George A. Lord, Chairman; Edward Seaver, N. L. Hammond, Barbour & Dixon, Engineers, F. A. Barbour, Supplementary Plan — November 1924, Showing (in Red Lines) proposed changes in location of trunk sewers and Upper Falls pumping station from that shown in original plan dated February, 1923."

Respectfully,

(Signed) EUGENE R. KELLEY,
Commissioner of Public Health.

It is the purpose of the committee to make a special report to the Town before the annual Town Meeting of 1925 upon the details of its work together with its recommendations to the Town relative to the matter of sewerage.

Respectfully submitted,

The Sewerage Committee

GEORGE A. LORD, *Chairman*,
EDWARD SEAVER,
N. LEROY HAMMOND.

REPORT OF DEPARTMENT OF PUBLIC WELFARE

January 30, 1925.

To the Inhabitants of the Town of Needham:

In submitting our annual report for 1924, we respectfully call your attention to the part of the statistical report which shows the comparative cost of aid rendered since the department was instituted. The rate per capita shows quite a marked decrease since 1921.

Although there is an unexpended balance of $1475.07 from our regular appropriation and $850.94 from the deficiency appropriation returned to the Treasurer we are unable to recommend an appropriation of less money this year as our estimate of known expenses is $14,295. The deficiency appropriation asked for is $900, this is $600 less than last year.

We still feel the necessity and reiterate the need of closer co-operation between all organizations, clubs, and individuals who are interested in doing social work for the reason that the work will be better done and the recipients will have received more lasting and beneficial results.

Respectfully submitted,

EVAN C. THORPE, *Chairman*,
SUSAN W. FISKE,
ALFRED T. BAKER.

NOTE: Average cost per inhabitant for year 1922 as shown above is 94c. This seeming reduction over previous years is accounted for in the fact that the reimbursements in 1922 were for aid rendered in year 1921 and prior. In order to judge the average cost per inhabitant, we suggest that 1921 and 1922 be averaged which shows a cost of $1.42 for years 1921 and 1922.

REPORT OF THE TRUSTEES OF THE NEEDHAM FREE PUBLIC LIBRARY

January 21, 1925.

The Trustees feel pride in the fact that our library in 1924 circulated 53,848 books, a much larger number than is reported by several of the smaller cities of the Commonwealth. Beginning with 1925 there is to be a deposit station in the Parker School at Charles River Village. The station in the Harris School has for years been a notable success, due chiefly to the public spirit of Miss Mary E. Glancy, who has given much time out of school hours to making it a useful and popular branch library. The deposit station in the Eliot School is of more recent origin succeeding a delivery station. With the large increase in business in the library the Trustees have sought by making the equipment ample and convenient to postpone the necessity for the employment of an additional assistant. In the near future stacks above those in the main hall, with the accompanying stairways and galleries, will have to be added, as originally planned. In the mean time the Trustees are using the basement for a considerable number of books, intending to postpone as long as possible the large expenditure of money required for new steel stacks, galleries, etc. It is not convenient for the staff to get and replace books kept in the basement but at present the less active sections of the library are there.

On March 28, 1924, Miss Angie E. Tracy left the service of our Town, and gave up library work. She had resigned the previous autumn, but the Trustees found it difficult to secure a satisfactory librarian at the salary we paid, Miss Tracy having set a high standard of efficiency, and she was persuaded to remain through the winter. She had been with us only twenty-one months, but is a thoroughly trained librarian with enthusiasm for the work, devoting her whole time and energies to it, and she did much for the library. Miss Barbara Abbott succeeded her beginning with September. Miss Abbott is a graduate of the School of Library Science in Simmons College, class of 1923, and when she accepted the position at Needham was in charge of the Reference Department of the Radcliffe College Library. The Trustees are well satisfied with their selection of a librarian.

Respectfully submitted for the Trustees of the Free Public Library.

GEORGE K. CLARKE,
Chairman.

REPORT OF THE WATER COMMISSIONERS

To the Inhabitants of the Town of Needham, Massachusetts:

The Water Commissioners submit their thirty-fifth annual report for the year ending December 31, 1924.

At the annual Town meeting in March, Mr. Henry Thomas was re-elected Water Commissioner for a term of three years.

The board organized by electing Mr. Philip A. Rand, chairman; Charles W. Jones, secretary; and appointing George A. Adams, clerk and superintendent.

Extension of Mains

The following extensions of six-inch mains have been made in 1924:

Avery Street — From 1923 extension to the house of Keith Douglas.

Coolidge Avenue—From Great Plain Avenue, southerly.

Emerson Road — From Chestnut Street to the houses of Alger E. Eaton and Roby S. Thomas.

Hemlock Street — From 1916 extension to the house of Jay Tracy.

Henderson Street — From 1916 extension, southerly.

Lawton Road — From 1922 extension, easterly.

Oak Knoll Terrace — From Great Plain Avenue to the houses of A. B. Cowdrey and Lewis E. Thayer.

Prince Street — From 1923 extension to the houses of Ralph Johnson and Willard E. Doane.

Prospect Street — From Great Plain Avenue to the houses of Messrs. Stata, Hampton, and Marcoldi.

New Pumping Station — An eight-inch force main from New Pumping Station to South Street.

Extension of pipe smaller than four-inch have been laid in the following streets:

Ellicott 577.3 feet, Harris Avenue 213.1 feet, Hunnewell 137.5 feet, Mark Lee Road 99.4 feet, May 338.0 feet, Oak Knoll Terrace 203.3 feet, Otis 45.8 feet, Upland Road 205.0 feet.

All of the extensions were made under a six per cent, ten-year guarantee.

Hydrants

The hydrants have been painted, after receiving their customary inspection and repairing, to put them in first-class working order.

Water Rates

As authorized by vote of the Town in 1924.

The minimum advance water rate on each service shall be $10 per annum, from April 15 to April 15, and pays for 2,500 cubic feet of water if used between these dates.

Water used in excess of 2,500 cubic feet, and under 202,500 cubic feet will be charged at the rate of twenty cents per 100 cubic feet.

Water used in excess of 202,500 cubic feet will be charged at the rate of eleven cents per 100 cubic feet.

Bills for the minimum advance water rate of ten dollars, shall be rendered April 15, and will include the charges for excess water for the year ending on that date, except if the water used between April 15 and October 15, in the same year exceeds 2,500 cubic feet, a bill for such excess shall be rendered and payable October 15, or, if the meter readings indicate that a large amount of water is being used on any service, the bills shall be rendered and payable monthly.

Increasing and Protecting Water Supply

In 1923 we reported the contemplated plan of increasing the water supply, as follows: "The Colburn House" that was near these driven wells, has been moved to Dedham Avenue, near the Pumping Station, and will be put in condition, to be occupied by the Chief Engineer, in the spring.

We can now drive additional wells, and get an electric auxiliary pumping unit and pump directly into the distributing system. This pump can be used in case of any trouble with the present pumping plant, or during the period of low water. This plan will be thoroughly tested as to quality of water and feasibility, before we make it a part of the pumping system, and if it does not prove advisable, we will drive test wells in another locality.

Whatever plan is adopted, it will be necessary to ask the Town for an appropriation, or issue of bonds, for the same, and an article will be in the warrant at the annual Town Meeting.

Before entering upon this plan and asking the town for an appropriation, the matter of taking water from the Metropolitan System was taken up with the Commissioner in charge as follows:

TOWN OF NEEDHAM
WATER DEPARTMENT

Needham, Mass., March 24, 1924.

Metropolitan Water Commission,
No. 1 Ashburton Place, Boston, Mass.

Gentlemen:—Owing to the condition of the water supply

of this Town during the fall of 1923, it becomes necessary for us to look for an additional water supply. In order to decide this matter intelligently we would like to get from your board the cost and all other necessary data for this Town to be connected with the Metropolitan Water System, so that we can get from this source a sufficient quantity of water to supplement our present supply.

Would it be practicable and possible from your standpoint to have us install a pump and take water from the conduit that runs through our Town for this auxiliary supply?

Very truly yours,

PHILIP A. RAND,
CHAS. W. JONES,
HENRY THOMAS,
Water Commissioners of Needham, Mass.

GEORGE A. ADAMS, *Clerk.*

March 28, 1924.

Mr. Philip A. Rand.
Chairman, Water Commissioners,
Needham, Mass.

Dear Sir:—The letter of the Water Commissioners of the Town of Needham, dated March 24, was duly received and carefully considered. As I understand that it was your wish to have a reply at an early date so that the matter may be discussed at a Town Meeting next week, the Commission requested the engineer to make a preliminary study of the problem and a report based on such preliminary and somewhat hasty study.

I am therefore writing you this letter as a partial reply to your inquiry and not as a formal determination of the Commission as to the exact cost of admission to the Metropolitan Water District. If the Water Commissioners desire the Metropolitan District Commission to make a further detailed study of the problem and fix an exact price for admission to the Metropolitan Water District the matter will be given attention upon receiving a further inquiry from you.

As the Town of Needham is within ten miles of the State House it may be admitted to the Metropolitan Water District upon payment of such sum of money as the Commission may determine and thereafter obtain a portion or all its water supply from the Metropolitan Water Works, paying therefor an annual water assessment computed on the same basis as prescribed by law for the cities and towns now in the district.

Inasmuch as the Town is bounded on the south and northeast by the Charles River for a length of approximately twelve miles, it seems to our Chief Engineer that an abundant

ground water supply may be obtained near at hand by enlarging the existing works of the Town, especially in view of the fact that the present average consumption is understood to be less than 500,000 gallons per day.

The Sudbury Aqueduct extends along the northwesterly portion of the Town and is located about one and one-half miles from the main village. It is not considered good engineering practice to cut into a masonry aqueduct and it is not possible to guarantee continuous and satisfactory service from an aqueduct as the water is shut off at times for the cleaning and repair of the aqueduct. Furthermore, a plan is now being considered by which filters will be located at the lower end of the Sudbury River Aqueduct and in that event unfiltered water of poor quality would flow in the aqueduct through the Town of Needham.

Therefore, it seems from a preliminary study of the problem that, in order to supply water to Needham from distribution mains of the Metropolitan Water System, it would be necessary to lay at least five miles of 16-inch pipe at a cost of approximately $180,000, and it would also be necessary to pump the water thus furnished between 50 and 100 feet. Without intending to pass finally on the matter it seems to the Commission that the charge to the Town for admission to the district must considerably exceed $200,000.

If the Town of Needham should enter the Metropolitan Water District its annual water assessment would be about $11,000, and its share of the Metropolitan water loan sinking fund already accumulated, plus serial bonds paid, would be about $90,000.

It seems to the Chief Engineer of the Water Division that the best interests of the Town would probably be served by extending its present ground water supply.

Yours truly,

(Signed) JAMES A. BAILEY,

Commissioner.

After receiving this letter it still seemed advisable to continue along the lines of the original plans for a basis of the work for 1924.

The Town authorized the issue of bonds or notes for $20,000, payable $4,000, in each year of 1925, 1926, 1927, 1928, and 1929, to be paid from the earnings of the Water Department, and the Water Commissioners were instructed to revise and increase the water rates to make this possible.

The "Colburn House" having been repaired, painted, papered, new plumbing and heating system installed (the steam for the heating system being supplied from the boilers at the pumping station) is now occupied by the Chief Engineer.

Additional wells were driven in the vicinity of those driven in 1914, near the original location of the "Colburn House," a new pumping station erected, pumps and electric motors installed, and a force main connecting this pumping unit to the distributing main in South Street laid, which gives to the Town an independent auxiliary supply that can be started at a moment's notice. The total cost of this work was $15,308.28; for items see Superintendent's report.

It was impossible to install a vacuum tank and pump for exhausting air from the suction pipe, leading to the old pumping station, until this unit was completed and the consumption of water was at a minimum.

The whole matter of increasing and protecting the water supply was referred to Metcalf & Eddy, Consulting Engineers, who after a thorough survey and investigation approved the foregoing plans, and the work was carried on under their supervision. The following is taken from the report of the Engineers:

Water Supply Needs

Population. As a basis of estimating the probable future requirements, we have made a forecast of the growth of population based in part upon actual growth of Needham to the present time, and in part upon the growth of other towns, more or less similarly situated, which now have populations considerably in excess of that of Needham. These estimated figures are based mainly upon a graphical study.

Needham is near enough to Boston so that it is practically certain to experience a rapid growth as a suburban residential district. When rapid development will occur will depend largely upon the provision of transit facilities. Extremely rapid growth has occurred in Watertown, Belmont, and Arlington since the completion of the Cambridge subway. If corresponding transit facilities should be provided in the direction of Needham, similar growth would undoubtedly occur, perhaps resulting in much greater populations than those shown by our estimates.

Consumption of water. The data given in the annual report of your department, shows that the quantity of water pumped is computed from the displacement of the pumps without allowance for slip. The figures are therefore greater than the actual consumption, as some slip occurs even when a pump is in perfect condition. Where tests have not been made for a considerable period of time, it has sometimes been found that slip is as high as 15 or 20 per cent, even with pumps of as good a type as yours. It is practically certain that the present slip is not less than 6 per cent. We have assumed a slip of 6 per cent during the last five years (1920 to 1924 inclusive) and have recomputed the consumption for those years on this basis.

Even with this allowance, the proportion of the water pumped which is accounted for by customers' meters, has ranged from 51 to 61 per cent — a comparatively small proportion where all of the services are metered. This indicates that the slip is materially greater than that assumed, or that customers' meters are under-registering, or that water is lost from the mains by comparatively large leaks or improper use. It is possible that all of these factors have an influence.

The total per capita consumption of approximately 60 gallons per day is, however, not excessive, and it is not probable that much improvement could be obtained in this direction, although some increase in revenue might result from an attempt to account for more of the water used. We have based our estimates of the quantity of water required in the future upon the following assumptions:

Year	Population	Per Capita Consumption	Total Consumption
1925	8,200	65 gallons per day	533,000 gallons per day
1930	9,400	68 gallons per day	640,000 gallons per day
1935	10,700	70 gallons per day	750,000 gallons per day
1940	12,000	72 gallons per day	864,000 gallons per day

Present Water Supply

Dug Wells. The main water supply has been obtained ever since the works were built from dug wells in the valley of Bird's Hill Brook. Well No. 1 is 22 feet in diameter and 24 feet deep and was dug in 1890. Well No. 2 is 20 feet in diameter and 30 feet deep and was dug in 1898.

Hicks' Spring. Hicks' Spring, which was developed in 1903, is a series of open jointed collecting pipes, with a small basin to intercept the water, and from this point, flows by gravity through a 6-inch cast iron pipe about 3,300 feet to the collecting basin and well No. 1.

Collecting Basin. The collecting basin or reservoir is immediately behind the pumping station, and is depended upon to retain a part of the flood waters of the brook, as well as to hold back the ground water, which would otherwise flow through the earth to the river, and thus it sustains the wells. Water is not drawn directly from this reservoir.

Pumping Station. The pumping station contains a $1\frac{1}{2}$ m.g.d. Laidlaw-Dunn-Gordon pump which is in regular service, and two 650,000 g.p.d. Blake pumps, which are held in reserve. Water is pumped directly into the mains and consumption is equalized by two standpipes, one on Ryan's Hill, 25 feet in diameter and 85 feet high, with a capacity of 312,000 gallons, and one on Bird's Hill, 55 feet in diameter and 44 feet high, with a capacity of 766,000 gallons.

Safe Yield of Present Sources. On the basis of the experience of 1923 when the supply from the dug wells and Hicks' Spring proved insufficient for the demand, and when additional water had to be provided by temporary pipes from driven wells near the river, it is assumed that the safe yield of the present sources is approximately 380,000 gallons per day. The storage in the basin is about 9,000,000 gallons and the water surface about 7 per cent of the drainage area. The safe yield of this basin would then be estimated at about 300,000 gallons per day. The yield of Hicks' Spring, when it was developed, was estimated at something less than 100,000 gallons per day, which checks the preceding figure of 380,000.

Since the region from which Hicks' Spring derives its supply is rapidly being developed for residential purposes, it is probable that this source may have to be abandoned in the near future, after which the safe yield cannot be considered as in excess of 300,000 gallons per day.

Quality of Water. The water from the dug wells is of excellent quality and as the Town controls a large part of the drainage area feeding them, and it is maintained in a clean condition, there seems no reason to doubt that this water will remain satisfactory for use for many years. The character of the water as shown by chemical analyses indicates that the water of Hicks' Spring is at present equally as good as that from the dug wells.

Test Wells. During the water shortage in 1923, an emergency pumping plant was installed and five of the test wells driven in 1914 were temporarily connected over the surface of the ground, to the pump, and a discharge pipe led to Well No. 2. This plant was run continuously for about two months and pumped about 100,000 gallons per day during this period, an average of 70 gallons per minute, or 14 gallons per minute per well.

In view of the yield actually obtained from these wells and the results of the tests made at the time they were driven, it was believed that a considerably larger quantity of water could be obtained from this source if suitable additional wells were provided.

Additional Wells. The very dry weather of July, 1924, resulted in depleting the water in the dug wells to such a point that the pumps could with difficulty maintain the supply to the Town. Even more serious conditions seemed probable, and necessity of immediate provision for more water was evident. Whereupon an order was placed with F. A. Mazzur & Co., of Boston, for the construction of a small pumping station and the installation of a 6 x 8-inch triplex pump belted from an electric motor, with a steel tank as a vacuum chamber and sand catcher upon the suction pipe, and an electrically operated vacuum pump for

exhausting air from this tank. Arrangements were promptly made for driving additional wells to develop the area as fully as seemed practicable, and a sub-contract was made with the Lead Hydro-Tite Co., for driving these wells and laying the suction pipes. The 8-inch discharge pipe from the pump to the main pipe in South Street was laid by the Water Department.

Work on this installation was undertaken at once, with a guarantee that the pumping plant would be ready to pump water from the test wells within two weeks, but within a few days heavy rains replenished the supply to the dug wells, and there has not yet been any necessity for utilizing the additional supply.

In all, eighteen additional $2\frac{1}{2}$ inch wells were driven to depths varying from 10 feet 5 inches to 19 feet 7 inches. All of these wells like the original test wells, have open ends, as well as strainers formed by drilling about fifty $\frac{1}{4}$ inch holes in the lowest two feet of the casing pipe.

Yield of the Driven Well System. It is impossible to make a trustworthy estimate of the yield of the driven wells until water has been pumped from them continuously for a long period and in a dry season. In order to get some line on the probable yield of the system as a whole, we conducted a pumping test lasting four days, from December 9 to December 13, discharging the water upon the surface of the ground where it could flow to the river.

The pump was operated at a rate of about 190 gallons per minute during this period, and the ground water was lowered only about two feet, apparently no more than enough to cause the water to flow through the ground to the wells. There had been no considerable rain for a long time, and the indications are therefore that the wells may be safely depended upon to furnish at least 200 gallons per minute through a very dry time. This would correspond to an addition of 288,000 gallons per day, making with the present supply a total of 668,000 gallons per day, which, according to our estimate, should be sufficient for the needs of the year, 1932.

It is possible that these wells may prove adequate to furnish a safe supply not less than 300 gallons per minute or 430,00 gallons per day, which is greater than the safe yield of the present sources. The combined safe yield would then be about 810,000 gallons per day, sufficient for the estimated requirements of the year 1937; or, if the Hicks' Spring is abandoned, a total of 730,00 gallons per day, adequate for the estimated requirements of the year 1934.

Pumping Equipment. The pump is a Gould's Triplex single acting pump 6 x 8 inch in size, driven by a belt from a 15 h.p. electric motor.

The displacement of the pump is 2.938 gallons per revo-

lution. The motor runs at a full load at a speed of 1150 r.p.m. and the pulleys are 8 and 36 inches in diameter and the gear ratio is 5 to 1, so that the speed of the pump is 51 r.p.m., corresponding to a discharge of 150 gallons per minute.

Provision has been made in the station for the installation of a second pump and motor of the same size. The space is sufficient, however, so that a somewhat larger pump may be installed if conditions warrant it. We believe that the installation of a second pump of the same size will probably be found desirable. The cost of a pump and motor installed will probably be about $2,000 if duplicates of those now provided are obtained.

If it seems worth while to get a larger pump, one of 250 gallons per minute capacity with a 30 h.p. motor can probably be installed for about $2,500. The vacuum tank or sand catcher is a steel tank 4 feet in diameter and 6 feet high, containing a float by which a switch is actuated to automatically stop and start the 1 h.p. motor driving the vacuum pump. The latter is a Gould's single cylinder double acting piston air pump with a 4-inch diameter piston and 5-inch stroke. The motor speed is 1150 r.p.m.; the pulleys are 4½ and 26 inches, and the gear ratio is 5 to 1, so that the pump runs at 39 strokes per minute. The displacement is 0.531 gallon, making a capacity of 21 gallons per minute.

The floor of the pumping station has been set somewhat below the level of the ground in order to reduce the suction lift to a minimum, but the electric motors have been mounted on pedestals to prevent damage to the motors in case of flooding of the station during the high water in the river.

The pumping station, itself, is of wood 18 x 18 feet inside, and the windows are provided with wooden shutters to guard against breakage.

Electric Power. Power is obtained from the Edison Electric Ill. Co., which already had feed wires in South Street. It was necesary to set two poles to run the wires to the pumping station. The contract with the Edison Co., provides for an annual minimum payment of $500, and for charges of electricity consumed in accordance with their "Miscellaneous Energy Rate H;" which is as follows; 9.5c per k.w.h. for the first 10 k.w.h. per month; 3c per k.w.h. for the next 10,000 k.w.h. per month; 1.1c per k.w.h. plus coal charge for the excess over 10,010 k.w.h. per month. On the basis of pumping at a rate of 150 gallons per minute, the consumption of electric power for continuous pumping will be about 8,064 k.w.h. per month, corresponding to a bill of $242.57 or an average rate of practically 3c per k.w.h. The annual minimum of $500 will therefore be sufficient to provide for the operation of this station for a period of about sixty-two days.

Attendance. The electrically operated pumping station will be substantially automatic in its action. It will only be necessary for the men from the main pumping station to visit it often enough to stop and start the pump and to see that it is properly lubricated.

Quality of Water. The results of chemical analyses of the water from the several wells, as well as average figures for the water from the present source of supply made by the State Department of Public Health show waters of substantially similar quality as the present supply, and there is nothing in the chemical analyses to cause any question as to the sanitary quality of the water.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Needham:

The appended report of the Superintendent of Schools, Mr. John C. Davis, covers all phases of the School Department so thoroughly that little can be added to this report by your School Committee.

In general, we might call attention to or emphasize a few items of unusual interest and importance.

The new High School building was opened for occupancy early in September, 1924, and on the whole is proving eminently satisfactory. The building has not yet been turned over officially to the School Department by the Building Committee because of a few incompleted items, and the heating unit has not as yet proven entirely satisfactory during severe weather conditions.

It is a source of gratification and also of concern to your Committee to learn that, in five years' time, namely, from 1919 to 1924 inclusive, our High School attendance has more than doubled. This increase is greater than the corresponding growth of the town in population, and points out the increasing appreciation by our citizens and their children of a continued and higher education than in former years. The older high school building is now occupied by seventh and eighth grades and is gradually assuming the proportion of a Junior High School in conformity with advanced educational procedure.

These rapid increases in school population combined with the rapid growth of our town and the ever increasing cost of buildings, upkeep, supplies, and tuition account for the higher budget with which you are being confronted at our annual town meetings regardless of the watchfulness over expenditures and the economies practised by your committee. It must be agreed, however, that no investment made by the citizens of this town is productive of more flattering dividends than is an educated body of young citizens. We wish to commend the town's people for their purchase of land in the rear of the Avery School for future school purposes. The remarkable increase in land value of Greene's Field now owned by the town, is evidence of the

wisdom of these purchases. Now that the high school problem has been successfully disposed of, for the present at least, our next concern is the inadequate schooling facilities at the Upper Falls section of the town. This problem is being carefully studied by your Committee with due consideration for future growth and also for the tendency toward centralization of school systems and the amalgamation of foreign population. It seems at this time that a new building of permanent construction and of a size adequate for the kindergarten and lower grades is necessary for this section at an early date.

Your committee is being repeatedly requested by a group of citizens in the outlying sections for improved and extended transportation facilities. It is pointed out that these requests are made not because of the unwillingness of the parents to permit their children to walk to school, but because of the ever increasing danger to children on account of automobiles and because of the extensive absence of sidewalks on many of our main thoroughfares.

We cannot too strongly call attention to the need of immediate attention to this defect and to the need of more safety for our pedestrians, especially our school children.

Your committee is deeply appreciative of the ever increasing spirit of co-operation existing between the people of Needham and their School Department.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

I am submitting for the consideration of your committee my fourth annual report regarding the schools of Needham.

Probably no other period of twelve months has seen so many changes in the organization and equipment of our schools as the twelve months that have elapsed since my last report. Among the most important changes are the opening of the new High School; the transfer of the seventh and eighth grades from the Kimball to the old High School building; the transfer of one fifth grade and two fourth grades from the Stephen Palmer to the Kimball, to relieve the congestion at the Kimball and Stephen Palmer Schools; the establishment of courses in cooking, sewing, and manual training in the new High School; and the introduction of a course in Physical Education in all the schools. These changes have presented many problems to your Board, required extra meetings and much careful planning. All our school problems are not yet and never can be completely solved in a growing community where extra accommodations must be planned for continually. I am sure that much progress has been made during the last year and that our schools are offering broader opportunities to the pupils than they were a year ago. This has been made possible chiefly by the construction and equipment of the new High School building. The large expenditure necessarily involved places an added responsibility upon this department, this we welcome as one that will result in larger dividends to the community by the better preparation of our boys and girls for the positions they are to occupy in the world.

Membership

An examination of the table below will show at a glance the continued growth of the Needham schools and will give one an idea of problems confronting this department in planning for the future. Approximately one hundred pupils per year since 1919 is the rate of increase. This means three school rooms and three teachers each year to keep pace with the increase and at an average expense of about seventy-five dollars per pupil, it means seventy-five hundred dollars must be added to the budget each year to cover the cost of teachers, books and supplies, not taking into account the cost of additional school accommodations. There are at

present but two unoccupied rooms; both on the third floor of the Kimball building.

It was a wise provision to purchase the land back of the Avery School; this with Green's field gives room for expansion at both ends of the Town, and plans should be made so that reasonable school accommodations will be provided as fast as the number of pupils demands. It is impossible, of course, to tell just where the future growth of the town is to be. No one in any community seems to have been wise enough to prophesy this with much accuracy. But from present indications the newly purchased land back of the Avery School and Green's Field particularly are the two school lots that will soon be needed.

New High School

The opening of the new High School was delayed about a week because some of the work was not completed as soon as was expected. The school assembled for the first time in the new building September 17, and arrangements were made with the Building Committee so that the unfinished work was completed without serious interruption to the work of the school.

There is equipment in this building for all the activities connected with a modern high school; adequately equipped laboratories, cooking and sewing rooms, a lunch room, a manual training room, and a gymnasium with showers both for boys and for girls.

The generous appropriation made by the people of Needham places our High School in a position where it can carry on the work that a modern high school is expected to perform in a progressive community.

NEW HIGH SCHOOL BUILDING

I am leaving a description of the building to the report of the Building Committee but am including in this report cuts showing the outside of the building and arrangements of rooms on the different floors.

Citizens of the Town and parents in particular should visit the High School when in session.

Junior High School

We should look forward to the organization of a real Junior High School in Needham. There are at present five seventh and eighth grades in the old High School building and five in the William Carter School. These grades are organized on the departmental plan, which is proving efficient and must be continued for a time. As our department grows, the best organization for the town will be the housing of these ten or more rooms in the same building with the freshman class of the High School. At the present time this would make a school of approximately 450 pupils and will enable the town to have a school with all the advantages to be found in a Junior High School. This plan is, of course, impossible under present housing conditions, but it should be kept in mind when considering the future development of the Needham school system.

Teachers

Since my last report there has been an unusually large number of changes in the teaching force. This is due to a variety of reasons, one of these is that our salary rate in the elementary schools is lower than that of most towns similarly circumstanced. If we keep in the Needham schools teachers of training and experience, it will be necessary for Needham to place its salary schedule on a par with other towns and cities of equal ability to pay. The salary schedule will not wholly solve the situation but it is one of the essential factors, and should be remedied at the earliest opportunity.

I believe that our teachers are living and working under as good conditions here as will be found in most communities and that they deserve and are receiving the confidence of the parents whose children they are teaching. It was necessary to engage several new teachers last fall to take care of increased numbers and to carry new courses begun in the High School.

The following table shows the changes in detail:

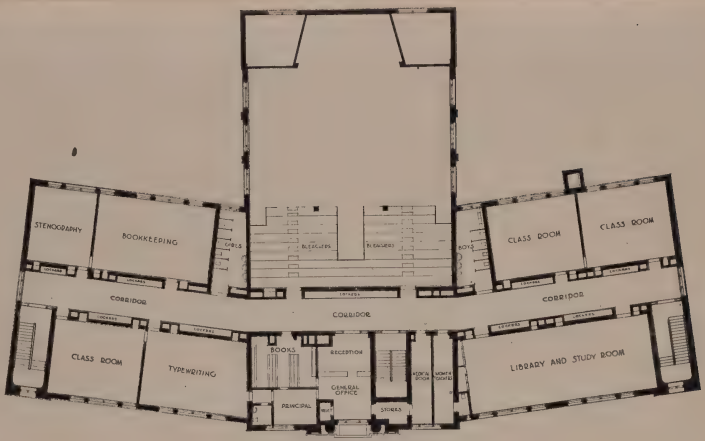
THIRD FLOOR



SECOND FLOOR

NEW HIGH SCHOOL BUILDING—PLAN OF FIRST FLOOR

The Problem of the Riverside School

The conditions at the Riverside School are much the same as at the time of my previous report. There is a grave sidewalk built by the town two years ago, from Highland Avenue to the schoolhouse so that pupils may go to school without walking in the street which is under water the major part of the time. It should be stated here that this school is not on an accepted street. The children are as comfortably housed as it is possible for them to be in a portable schoolhouse. The roof does not leak and there is a sufficient amount of heat except in the most severe weather, when several of our buildings give trouble. The conditions here should not be considered permanent, however. The portable building is an old one and some action should be taken toward providing permanent quarters for the children of this neighborhood. Several suggestions have been made; one for the construction of a new building; another for the transfer for the pupils to the Eliot School; still another for the construction of an underpass, so that pupils may walk from there to the Eliot School without crossing the railroad track. All of these plans seem to meet with some favor and considerable disfavor. A careful study of the situation should be made with due regard to the best arrangement possible and the nearness of the Avery and Eliot Schools.

Repairs

The summer vacation was spent in carrying out some much needed repairs. In addition to usual amount necessary to be done each year on wooden buildings, the following may be of interest:

Old High—Outside wood and metal work painted. Boilers repaired and basement plumbing overhauled.

Carter and Avery—New fences built.

Dwight—Outside painted.

Eliot—Both outside and inside painted, cement work around walls, and wire fence built.

Harris—Walls tinted, ceilings whitened.

Parker—Roof repaired.

Two important matters should be given early consideration. The furnaces at the Avery School are worn out and it is impossible to obtain new parts as the makers have gone out of business. I am advised that these furnaces are liable to give out at any time and leave us without any way to heat the building. I am recommending that the three old furnaces be replaced with a modern steam plant. Soft coal can be used to lessen the fuel expense. In case this is done,

provision should be made for possible additions to the building and sufficient space allowed for an additional boiler.

There is also the matter of the heating plant at the Eliot School. Here we have two old furnaces with a small auxiliary steam heater, but it seems to be impossible to heat adequately the two west rooms when the wind is from the north. I am recommending that additional radiators be placed on the north side of these rooms; with this change the plant may give good results for some time but the Avery School work should be done during the next summer vacation. No allowance for this has been made in the budget and I am informed that the work will cost approximately five thousand dollars. It should be made the subject of a special article in the town warrant.

Education Week

Education week was observed with addresses in some of the schools and in all the schools each pupil wrote a special invitation to his parents to visit the school on a specified day. In all 630 parents responded. No special program was prepared as it seemed advisable to have parents observe the regular daily work. We welcome visitors at any time and particularly parents of the pupils. I urge them all to visit our schools often and not wait until another Education Week.

Vocational Education

As Needham is located within easy access of the Newton Vocational School, the young people of Needham have an excellent opportunity for this type of education. With one exception all of our day vocational pupils have been to this school taking courses as follows:

Needham Students Attending the Newton Vocational School

Name	Department
Chambers, Ralph	Cabinet-Making
DeDoming, Harold	Printing
Desmond, Gordon	Printing
Barba, Louis	Machine
Gooding, Albery	Electrical
Gooding, Randolf	Pattern
Giumetti, Mato	Machine
Savignano, Lawrence	Machine
MacBurnie, Robert	Machine
Pandolf, Antonio	Machine
Coombs, Lillian	Household Arts
Williams, Grace	Household Arts
Shine, Margaret	Household Arts
Healey, Constance	Household Arts

Vocational work in Needham consists of a class in dressmaking in the High School, Friday afternoon, and classes in millinery Tuesday and Thursday evenings in the Kimball School building. The number of people taking this work is as follows:

Dressmaking	16
Millinery	16

For all vocational work organized with the approval of the State Department of Education, there is a reimbursement of fifty percent of the cost.

Parents' and Teachers' Association

We have one of the best Parent Teacher organizations with which it has been my good fortune to be connected. It is working in complete co-operation with the School Department, has well attended meetings, able speakers, and live discussions upon subjects of interest to every parent and teacher. This year "Safety Education" is the general topic throughout the year, your attention is called to the program which follows:

> "The object of this Association shall be to foster a closer sympathy and co-operation between the home and the school in the Town of Needham; and to promote the educational and social welfare of the community."

Health and Physical Education

The new equipment in the High School has made it possible to start a regular course in Physcial Education for both boys and girls.

Mr. Chester K. Delano was appointed director of physical education and his assistant, Miss Carolyn E. Tarbell, has charge of the High School girls. This work has been extended to all the schools in town, so that the pupils in all the grades are having the benefit of systematic physical training. This is a forward step in our organization and is well worth all it costs. Your attention is called to the report of the physical director to be found elsewhere in this report.

The work of the physicians and school nurse has been carried on systematically and in close co-operation with the work in physical education. I am sure that the physical welfare of all our pupils is now on a sound basis and is progressing favorably.

Thrift

At the opening of school in September, two additional Automatic Receiving Tellers were purchased by the Needham Trust Company and placed in our schools. There is now one machine for the William Carter and Avery Schools, one for the Kimball and old High Schools, and one for the Stephen Palmer School. The additional machines simplify the duties of the teachers and is an added incentive to the pupils. This system makes every child a potential depositor. There is no better way to teach thrift to pupils in the habit forming years than to provide the machinery of actual banking. Since this system was first introduced the childrens' savings have totalled $6,860.41 and in 1924 there was deposited through the schools, $970.44.

Acknowledgments

Acknowledgment is hereby made to the following:

To the Hon. Horace Carter for interesting addresses to the pupils on his recent trip around the world.

To Dr. John E. Fish of the Mass. Hospital School for his instructive address to the teachers on ventilation.

To the New Century Club for its assistance in taking children to the hospitals.

To the New Century Club for its contribution to the scholarship fund.

To the Needham Grange for an evening's entertainment and reception to teachers.

For the continued co-operation of parents and teachers, and the sympathetic consideration of your committee, I wish to express my sincere appreciation.

JOHN C. DAVIS,
Superintendent.

Eleanor A. Tibbetts	John Hancock Life Ins. Co.
Gilbert C. Toone	Mass. Institute Tech.
Virginia Whiting	Miss Wheelock's School
Robert Willgoose	Needham Trust Company
Dorothea Willgoose	Boston University
Robert C. Wilson	Mass. Institute Tech.
Raymond P. Wragg	Office Frank Gorse Co.

It will be noted that 32 out of 43 are continuing their schooling and that at least 4 others are holding positions for which their high school courses have directly prepared them.

The enrollment for the present year includes 2 post graduates, 58 seniors, 79 juniors, 97 sophomores, and 155 freshmen, making a total of 391. Of this number, 16 have left school, leaving a present membership of 375. Last year at this time we had a total enrollment of 327, of whom 7 had left school prior to the date of the report. Present figures seem to indicate that next year will bring at least an equally large increase in membership, especially since the precentage of those graduating from the 8th grade who enter high school has been steadily increasing. Last year of 155 who completed the 8th grade 137, or over 88%, have entered Needham High School. Of the other 18, 6 went to work, 3 have moved away, 6 went to Newton Trade, and 3 entered other schools.

Of course, the most important event in the past year has been the opening of the new building and the reorganization of the school which this has made possible. The building in its design and general plan is proving even more satisfactory than we anticipated, and because it was so planned as to permit additions when needed, it would seem possible to practically double the capacity of the building

at not over a third of the original cost when the growth of the town renders such a step advisable.

Major items of expense still needed to bring the building into the most efficient use are:

1. Seats on the bleachers in the gymnasium.
2. Stage curtain.
3. Small generator for supplying direct current in the laboratory.
4. Cleaning, repairing and setting up the statuary and casts temporarily left in the old building.
5. Making certain changes in the heating system so as to give adequate heat on the west side of the building.
6. Finish grading lot.
7. Cut a door into the store room from the boiler room stairway.
8. Tint room and corridor walls.
9. Provide additional equipment for the gymnasium.

By coming into the new building, we have been able to open three new courses, domestic arts, manual training and physical education. Sixty-three boys are enrolled in manual training; 107 girls in domestic arts; and physical training is required of all pupils. The first two courses are not designed or intended to teach trades, but rather to give command of such skill and training as ought to be the property of every efficient citizen and home-maker. Nearly three-fourths of the girls taking domestic arts are carrying this work as an extra subject in addition to the four required for the usual school program; and the same is true of several of the boys in manual training, but in far smaller proportion. In regard to the work in physical education, I have believed for some time that it was needed, but I confess I did not begin to appreciate how much it could accomplish until I had had an opportunity to observe the lack of muscular co-ordination our pupils possessed before taking up the work and the rapid improvement produced by even a few weeks' drill.

A good deal of attention has been directed to the length of our school day. It is the experience of most high schools, and particularly of those high schools like our own, where some attention is given to practical arts and to the physical welfare of the pupils, that the school day of about five hours is too short to provide for such a program. At the same time it is evident that this short school day throws more and more responsibility for preparation of lessons on the home, as the school has less and less time available for this purpose. In order to do more efficiently these two things, provide opportunity for study in school during school hours, where and when study ought to be largely done; and to

provide time for our gymnasium periods and for our work in practical arts, our school day has been lengthened to six hours including a lunch period of thirty minutes and brief recess of five minutes.

In this time we can provide for six periods of 52 minutes each, aside from the time required for classes to change from room to room. Each 52-minute period, except in those classes where laboratory methods are employed, is divided into two parts, one of 37 minutes for the usual type of recitation and one of 15 minutes for preparation of the next day's work under the supervision of the teacher. This supervision gives opportunity for individual assistance, and also for that highly important element in high school education — teaching the class how to study. No pupil ought to average less than an hour's home study each day under present conditions and it is equally certain that no pupil of average ability should require more than an average of two hours' daily home work to insure his obtaining satisfactory ranks. Of course, pupils who add an extra course to the four required have to realize that they are adding to the work to be done while they are at the same time decreasing the school time available for doing it; and these pupils will need to spend considerably more time on home study; but for the large majority of the pupils the statement made will hold absolutely true. The first two months' ranks issued after this plan went into effect showed less than 9% failure in the school, and I believe the results will continue to justify the school committee in its action in adopting the idea.

Such a school day would be impossible without a good lunch counter to provide satisfactory food at reasonable prices. Miss Dudley has done a fine piece of work in organizing the system now in effect and the success of the lunch room is due to her efforts plus the effective work of Mrs. Gillespie. It is a matter of keen regret that Miss Dudley has had to be away on account of serious illness; but the school is extremely fortunate in having one as capable as Mrs. Stevenson to act as a substitute. The lunch room serves daily over three hundred of the pupils with food varying from a cup of soup or cocoa to supplement lunch brought from home, to a fairly substantial meal, and at the same time provides comfortable quarters for eating the meal. Financially the cafeteria has paid its own bills and has a small but steady surplus.

For the future, considerable remains to be done in the way of developing the program and the organization of the school. The work in Domestic Science may well be divided next year so that choice may be made between cooking and sewing; in manual training it seems doubtful if it will be wise to offer more advanced wood working, at least for the

present. It is clear, however, that the present arrangement does not attach sufficient importance to the drawing in the High School and that it is highly desirable to have more of the drawing teacher's time given to these grades.

I would also recommend that the school committee begin gradually to recognize heads of departments. As long as not more than two teachers taught a particular subject, the question of the leaders was relatively unimportant, but we now have four teachers who are teaching English, and it is becoming more and more necessary, not only that they should continue to co-operate with each other to the fullest extent; but that some one of them should have authority to decide the technical matters that concern them all as English teachers, especially as I believe one of our next tasks should be to work out new courses of study in some detail.

In conclusion, I would again express my appreciation of the co-operation of the School Committee and Superintendent in the solution of our High School problems.

Yours respectfully,

GILMAN H. CAMPBELL,
Principal.

REPORT OF PRINCIPAL OF EVENING SCHOOL

Needham, Mass., Dec. 31, 1924.

Mr. John C. Davis, Superintendent of Schools,

Dear Sir: — The Evening School of 1923–24 opened October 8th and closed April 17th after a session of fifty-one nights.

The fall term began October 28th with an enrollment of 46. Classes have been organized in Americanization, millinery, and elementary school subjects and are conducted in the Kimball School, Chestnut Street.

The class in millinery, under instruction of Mrs. Clara M. Holmes, held exhibition of work of the first unit consisting of velvet and metal cloth hats on December 4th. The hats were neatly and carefully made. The quality of work and choice of material reflected much credit on teacher and pupils. The present unit comprises satin and bengaline hats.

The class in elementary school subjects is composed of eight young women and is taught by Mrs. Harold R. Waining.

The Americanization class is made up of adult aliens some of whom are preparing for Naturalization and others

are learning to read and write English and are trying to secure some knowledge of civics and elementary school subjects.

All the pupils at Evening School are eager to learn and several have expressed a desire to have school three times a week instead of two.

In closing, let me express my gratitude to the School Committee and Superintendent for their interest and co-operation in the work of the Needham Evening School.

Respectfully submitted,

MARY E. GLANCY,
Principal.

REPORT OF DIRECTOR OF PHYSICAL EDUCATION

January 27, 1925.

Mr. John C. Davis, Superintendent of Schools,
Needham, Mass.

Dear Sir:—I herewith submit the report of the Physical Education Department for the fall of 1924.

In accordance with the state law, all of the school children of Needham are taking some form of systematic Physical Education. The forms of exercise vary with the age of the child, and with the space and equipment in the buildings. In general, the work consists of marching, calesthenics, and games.

The marching is to teach carriage and poise in walking, and to develop self control by the military attention maintained.

The calesthenics are of three types, postural, hygienic, and educative. The postural type is given to promote proper stance for the frame work of the body that circulation, digestion and respiration may be unhindered. The hygienic exercises are to increase blood flow, thus caring for waste matter in the system; to increase lung capacity by deeper breathing; to so enrich the blood as to give the body greater resistance and immunity; and lastly to develop co-ordination, or the ability of the brain to control the muscles with ease and grace. Calesthenics also teach the pupils to make use of the proper muscles for a given purpose, thus eliminating unnecessary strain and fatigue. Educational exercises are those of a type designed to develop quick thinking and to increase the powers of memory and observation.

Games are of educative and hygienic value, but vastly more important in the teaching of fair play and sportsmanship.

In the High School, two hours a week for each pupil are given to physical education in actual class work including

shower baths. Afternoons after the close of school, are spent in interclass competition and in general outside team games. In these afternoon classes, it is hoped to teach each pupil a game, or some form of exercise that can be carried into later life to keep the individual in good health.

The Junior High School has one-hour class a week which includes shower baths in the New High School.

At present, fifteen minutes a day is the minimum spent in each lower grade room, but with the earnest co-operation of the grade teachers much can be done to eliminate malnutrition and improve health.

The report of 1923 shows an expenditure of only $.016 for health in every dollar spent for education. Because good health is necessary for an education or for life, it is obvious that more money and time should be spent in the broadening of health education.

I wish to thank you, the medical department, and all others who have co-operated in the movement of better health for Needham boys and girls.

Respectfully submitted,
CHESTER K. DELANO.

REPORT OF THE SCHOOL PHYSICIANS AND NURSE

Mr. John C. Davis, Superintendent of Schools,
Needham, Mass.

Dear Sir:—I respectfully submit a report of my work in the High, William Carter, Avery, Riverside and Eliot Schools for the year 1923–1924.

No. children examined	992
Defective teeth	460
Defective tonsils	255
Defective glands	20
Cardiac disease	12
Pulmonary disease	2
Malnutrition	3
Mental defects	2
Orthopedic defects	8
Visits to School	154
Office calls	50

I suggest that the Schick test for diphtheria be administered to pupils whose parents or guardians give their consent.

Respectfully submitted,
WM. MITCHELL,
School Physician.

January 1, 1925.

Report of work in Stephen Palmer, Kimball, Dwight, Harris and Parker Schools for the school year 1923–1924.

School visits	92
Office calls	29

In the annual examination of 945 pupils in the above named schools the following defects were noted:

Hypertrophied or diseased Tonsils	323 cases
Defective nasal breathing	34 cases
Alveolar abscesses	43 cases
Defective teeth	492 cases
Cardiac disease	6 cases
Orthopedic defects	29 cases

Of 919 pupils weighed, only 6.7% were 10% or more underweight which is a marked decrease in the number as shown by last year's weighing and fully justifies the expenditure for scales and the work of the school nurse.

CHARLES L. MacGRAY.

January 9, 1925.

Mr. John C. Davis,
Superintendent of Schools,
Needham, Mass.

My dear Mr. Davis:—I herewith submit a report of the Health Work in the different schools during the year 1923–1924.

No. Schools Visited	483
No. Children Examined	1514
No. Children Inspected	1937
No. Children Weighed and Measured	1856
No. Children Given Eye Test	1742
No. Children Underweight	142
New Defects Found	767
Old Defects Found Improved	547
Old Defects Found Not Improved	1130
No. Children Referred to Physician	42
No. Children Excluded from School	84
Reported to Health Officer	3
Communicable Diseases	32
Defective Vision	32
Defective Hearing	55
Pediculosis	29
Dressings	78
Home Visits	177
Cases Tonsils and Adenoids	104
Cases Reported	1897
Cases Under Observation	619
Cases Without Defects	494

The proceeds of the Christmas Seal Sale has made possible various kinds of health work, namely, removal of tonsils and adenoids, dental work, defective vision corrected and glasses furnished. We were able to supply many children with milk and send one child away for two months to a summer camp.

The Modern Health Crusade has been carried on in all the grades with considerable success.

I wish to take this opportunity to thank the members of the New Century Club for their kind assistance in transporting a number of children to hospitals at different times.

Respectfully submitted,

AGNES I. McKENNA,

School Nurse.

TOWN OF NEEDHAM

REPORT

OF THE

FINANCE COMMITTEE

TO THE TOWN

AT THE

ANNUAL MEETING, MARCH 17, 1924

ELECTION, MARCH 10

BUSINESS MEETING MARCH 17, AT 7.30 O'CLOCK

NEWTON
GARDEN CITY PRESS, Inc.
1924

REPORT OF FINANCE COMMITTEE

To the Inhabitants of the Town of Needham:

The Finance Committee respectfully submits the following report:

ARTICLE 4

The overdrafts of 1923 shown as "Dr." balances in the Comparative Tables on pages 6 and 7 totalled $10,281.31. All but $305.07 of this was for interest paid on temporary loans and funded debt. Deficiencies consisting of unpaid bills chargeable to the year 1923 as per latest report amount to about $5,350, the increase over the amounts stated on pages 248–9 of the Town Report being due principally to legal bills in connection with the Needham Tire Co. litigation. In 1923, there was appropriated for deficiencies and overdrafts the sum of $6,700 and unexpended balances in the amount of $6,173.01 were continued for the year 1923.

The committee recommends that all unexpended balances of 1923 appropriations be returned to the Treasury except the balance of $2,501.44 for Town Hall and grounds and that this balance be continued for the year 1924.

The committee recommends that the sum of $15,650 be appropriated for deficiencies and overdrafts for 1923, this amount to be taken from the accumulated surplus on hand December 31, 1923.

ARTICLE 5

The Committee recommends that the sum of $753.35 received from Dog Licenses, be appropriated for the use of the Public Library.

ARTICLE 6

The Committee recommends the following appropriations under this article.

Selectmen's Department. $1,350. Increase of $300 over 1923. [Salaries $450, Department Clerk $500, Incidentals $300, clerk in connection with relief funds $100.]

Accounting. $1,850. Increase of $200 over 1923. [Salary $1,700, expenses $150.]

Treasurer. $1,000. Same as in 1923. [Salary $500, bond $125, clerk $100, expenses $275.]

Tax Collector. $2,200. Increase of $200 over 1923. [Estimated salary and expenses. Salary is based upon collections. The Committee recommends that the Tax Collector receive ½ of 1% of the tax warrant for the collection of taxes for the year 1924. This is the same rate as paid in 1923.]

Assessors. $5,400. Increase of $2,400 over 1923. The Committee recommends that this sum be divided as follows: Salaries, one man full time $1,800, two men at average of $600 each, making total salaries for Assessors $3,000, clerk hire $500, office expenses $1,200, office equipment $700, including adding machine and safe.

Town Clerk. $700. Same as in 1923. [Salary $250, fees and expenses $450.]

Election and Registration. $1,500. Increase of $400 over 1923 caused by State and national primaries and election.

Town Hall and Grounds. $6,800. Increase of $1,045 over 1923. This sum includes janitor $1,560 (increase of $4.00 per week over 1923), extra janitor work $440, new canvas covering for Town Hall floor $300, miscellaneous $1,000, Town Hall roof $2,500, Granolithic walks $1,000. An appropriation of $2,500 was made in 1923 for new slate roof on Town Hall. This amount was found by the Board of Selectmen to be insufficient so the amount appropriated was not used. The Selectmen now ask for $5,000 for this purpose, $2,500 under a new appropriation and $2,500 under last year's appropriation.

The Selectmen ask for $1,000 for granolithic walk across the Town Hall grounds extending from corner of Chapel Street and Great Plain Avenue to Highland Avenue. The Finance Committee is of the opinion that a similar walk should be constructed across the grounds from the corner of Highland Avenue and Great Plain Avenue and that the sum of $1,000 should be sufficient to build both walks and so recommends.

Police Department. $12,736. Increase of $1,659 over 1923. This sum is made up as follows:

Chief	$2,236
4 men at $1,800	7,200
1 new man at $1,600	1,600
Maintenance and equipment	1,700
	$12,736

This Department requested two new men. Finance Committee recommends but one. Department asks for $400 for extra service men but Finance Committee does not consider that necessary if one extra man is added to the force, so recommend $200 for this purpose.

Fire Engineers. $300. Increase of $100 over 1923. [Two men at $150 each. Requested $175 each.]

Fire Department Salaries. $13,583. Increase of $817 over 1923. This amount figures $2,300 less than Fire Department requests, but Finance Committee deems it sufficient and this is arrived at on the following basis: Chief $1,836. [This sum together with $300 to be transferred from Building Inspection and $100 from Forest Warden, makes Chief's salary

$2,236.] Lieut. $2,000; 4 men at $1,768, $7,072; 26 call men as follows: 2 Captains at $150, 10 men at $140 (Comb. 1, Engine 1), 8 men at $100 (Ladder 1), 5 men at $30, 1 steward at $25 (Hose 1).

The above eliminates one extra permanent man for six months requested by Fire Department.

Fire Department, Maintenance. $2,750. Decrease of $15 under 1923.

Fire Alarm. $1,865. Decrease of $374 under 1923.

Board of Health. $3,375. Decrease of $261.50 under 1923.

Inspections. $2,050. Increase of $190 over 1923. Estimated expense can not be accurately pre-determined.

Highways, General. $50,000. Increase of $5,000 over 1923.

HIGHWAYS—GENERAL APPROPRIATION AND SPECIAL ARTICLES

The Finance Committee believes that the appropriations to be expended by the Highway Department should, as far as possible, all be considered at one time.

This applies especially to appropriations for all the work on highways except that done under the Betterment Act.

If at the Town Meetings there are a number of special articles in the warrant asking for appropriations for special purposes, as well as the general appropriation that is requested, a material portion of which must inevitably be used on certain particular streets, the Finance Committee and the Town Meetings will be asked to decide in detail as to what work is most necessary. They are obviously not the proper bodies to do this. Instead it should be done by the Selectmen and Superintendent of Streets, who have both the duty and the opportunity to decide such matters properly. It is believed, therefore, that the Town Meetings should be asked to decide ordinarily only what the total net expenditure for the Highway Department should be, and leave it to the proper officers as to how this should be applied.

Moreover, although special articles are necessary for work to be done under the Betterment Act, the amount of such appropriations should also be considered in connection with the other expenditures of the Highway Department, for the tax rate is increased by the amount appropriated for such work, although it is decreased by betterments collected on account of such work done in former years.

The total appropriations requested this year for the Highway Department, including that of the special articles and for work to be done under the Betterment Act, is $90,900 as against a similar figure of $79,107 last year, or an increase of $11,793.

If work to be done under the Betterment Act is excluded from both totals, the amount requested this year is $81,700 as against $58,607 or an increase amounting to $23,093. The general appropriation requested this

Other 1923 Appropriations (excluding those bonded and those voted under Article 4) totalled $45,495. Of this amount $20,500 was under the betterment law, of which the greater part will eventually be repaid to the town.

Other 1924 Appropriations Recommended by this Committee (excluding those recommended under Article 4) total $23,800. Of this amount, $9,200 is recommended under the betterment law, of which the greater part will eventually be repaid to the town.

It will be seen that the total appropriations recommended for this year are $23,243.41 larger than the appropriations made last year.

The above table analizes the various increases and decreases. It will be noticed that the increases attributable to schools, including charges on account of debt, total over $30,000, so that the aggregate of other appropriations recommended is slightly less this year than last.

It is estimated by the assessors that, based on building permits, there will be approximately $890,000 more taxable property this year than in 1923.

year is $62,550 as against an appropriation of $45,000 last year, or an increase of $17,550.

Moreover, it should be remembered that last year the Finance Committee recommended and there was appropriated an increase of the general appropriations over the preceding year of $15,000. This increase was recommended last year not for the purpose of establishing a higher limit which would again in due course be further increased, but because it was desired to make an especially liberal recommendation last year so that material progress could be made in the Highway Department before the expenses incident to the new high school, etc., became operative to increase the tax rate. In this connection, moreover, it should be noted that it appears from the report of the Superintendent of Streets that there was considerably more permanent bituminous construction done last year than the aggregate amount in the preceding three years.

In view of the above considerations the Finance Committee recommends:

1. That a general appropriation be made for the Highway Department for all purposes excepting work on Central Avenue and work to be done under the Betterment Act. Consequently it recommends that the other special articles be referred to the Selectmen for consideration under the General Highway Appropriation.

2. That the total appropriation for the Highway Department, exclusive again of work to be done on Central Avenue and under the Betterment Act, should be $50,000, this figure being arrived at by increasing last year's appropriation by $5,000.

The Finance Committee does not feel that the general appropriation, which was particularly liberal last year, should be increased by a larger amount than indicated, and for the reasons above stated feels that any provision it is desirable to make for special appropriations should be included in one general item.

Sidewalks. $13,000. Same as in 1923. The Finance Committee recommends that $10,000 be used for construction under the Betterment Act (of which $5,000 will be returned to the town) and $3,000 for general construction and repairs, making the total cost to the town $8,000. Warren Street sidewalk to be charged to this appropriation. (See Article 18.)

Poor Department. $15,000. Decrease of $1,000 under 1923.

State Aid. $500. Decrease of $400 under 1923.

Military Aid. $600. Increase of $100 over 1923.

Soldier's Relief. $800. Same as in 1923.

Moth Suppression, Public Property. $4,934.64. Increase of $192.05 over 1923. [The Committee recommends the appropriation of this amount as required by law, but with the understanding that only necessary work be done.]

Moth Suppression, Private Property. $3,000. Decrease of $1,500 under 1923. Money expended on private property for moth suppression is charged to the owners thereof and appears on their tax bills.

Forest Warden. $145. Same as in 1923.

Tree Warden. $1,500. Increase of $554.89 over 1923. This amount to include expense incidental to removing trees from highways where needed.

Insurance Premiums. $4,800. Increase of $3,000 over 1923. Increase caused principally by new school buildings.

Garbage Removal. $1,500. Increase of $790 over 1923. The Finance Committee makes this recommendation with the understanding that the collector will call wherever requested.

Schools (and Physicians). $146,900, plus Dwight School Fund of $210. Increase of $11,110 over 1923.

Net cost to town			$133,900

Vocational Tuition. $1,800. Same as in 1923. The State reimburses the Town one-half of this amount.

Public Library. $5,683.53. Decrease of $25.00 under 1923. This, together with the amount received from Dog Licenses, $753.35, and the income from the Barr and Greenwood Fund of $569.12 will make a total of $7,006.

Public Parks. $900. Same as in 1923.

Memorial Day. $300. Increase of $50 over 1923.

Unclassified. $1,980. Increase of $350 over 1923. This sum includes $500 for use of Selectmen as needed for registering in Land Court the titles of property to which Town holds tax titles, and omits $250 asked for by Selectmen for contingencies for Engineer's services.

Interest, Temporary Loans. $10,000. Increase of $2,500 over 1923.

Interest, Funded Loans. $25,609. Increase of $10,623.25 over 1923.

Municipal Indebtedness. $41,157.20. Increase of $9,757.20 over 1923.

Trustees Memorial Park. $1,600. Decrease of $1,900 under 1923. [Grading around athletic field and care for year $700, roof on building $500. Filling in cellar hole and grading around it $400.]

The Memorial Park Trustees conferred with the Finance Committee and presented a request for an appropriation of $2,500 to be used as follows: $500 for roof on building, $700 for grading around athletic field and care for year. These two items the Finance Committee recommends. A request for $300 for building driveway and grading to building does not meet with the approval of the Finance Committee. A request for $1,000 for preparing area for Band Concerts does not meet with the Committee's approval, but in the interest of public safety it does recommend an appropriation of $400 to be used to defray the expenses of filling the cellar hole and grading around it.

G. A. R. Headquarters. $150. Same as in 1923.

Finance Committee. $250. Same as in 1923. [Printing and distributing Finance Committee reports.]

Reserve Fund. $2,500. Same as in 1923.

Town Planning Board. $150 (expenses). Increase of $100 over 1923.

Street Lighting. $11,400. Increase of $1,800 over 1923. The Town is now lighted on a moonlight schedule, but in the interest of public safety, the Committee recommends that the streets be illuminated each night until 1.00 A.M.

Snow Removal. $7,000. Decrease of $2,300 under 1923.

Norfolk County Hospital. $4,106.14. Decrease of $912.48 under 1923.

ARTICLE 7

The Committee recommends the adoption of the substance of this article.

ARTICLE 8

The Committee recommends that the salaries of all elected town officers be the same as in 1923 except that of the Assessors who shall receive $3,000, divided as follows: one assessor, to give his entire time $1,800 per year, two assessors, to divide time and balance of $1,200 as they may decide.

ARTICLE 9

The Committee recommends that the Town have its taxes collected in the same manner and at the same rate of compensation for Tax Collector as in 1923. Namely ½ of 1% of the tax warrant payable as and when collected. This compensation shall include all expenses except payment of collector's bond.

TOWN OF NEEDHAM

ANNUAL REPORT

OF THE

BOARD OF ASSESSORS

FOR THE YEAR 1924

NEWTON
GARDEN CITY PRESS, INC.
1925

ASSESSOR'S REPORT

In accordance with the vote of the Town, there is published in addition to the usual Table of Aggregates, and Summary of Assessments; the Valuation List of the Town. This list will disclose that there has been a general revaluation of all property.

The tax rate for 1924 is based on the valuation as published. If there should be no increase in taxable property and no increase in expenses for 1925, the tax rate would remain the same as in 1924, namely, $31.20.

It would be apparent that an increase in expenses for 1925 must be met by taxes derived from new property, or by an increase in the tax rate based on present valuations.

If the increase in new property subject to tax in 1925, shall prove to be one million dollars as reported, the amount of taxes derived from this increased valuation at the rate of $31.20 per thousand would be $31.200. If the expenses and appropriations for 1925 exceed the expenses and appropriations of 1924 by more than $31.200 then the tax rate must be increased.

This situation should be clearly understood by the tax payers and voters, for the reason that the tax rate is virtually determined by the voters in Town Meeting, and any material increase in appropriations over last year must of necessity be reflected in a higher tax rate and a larger tax bill to be paid by the tax payers.
